Friip

Online on demand service app

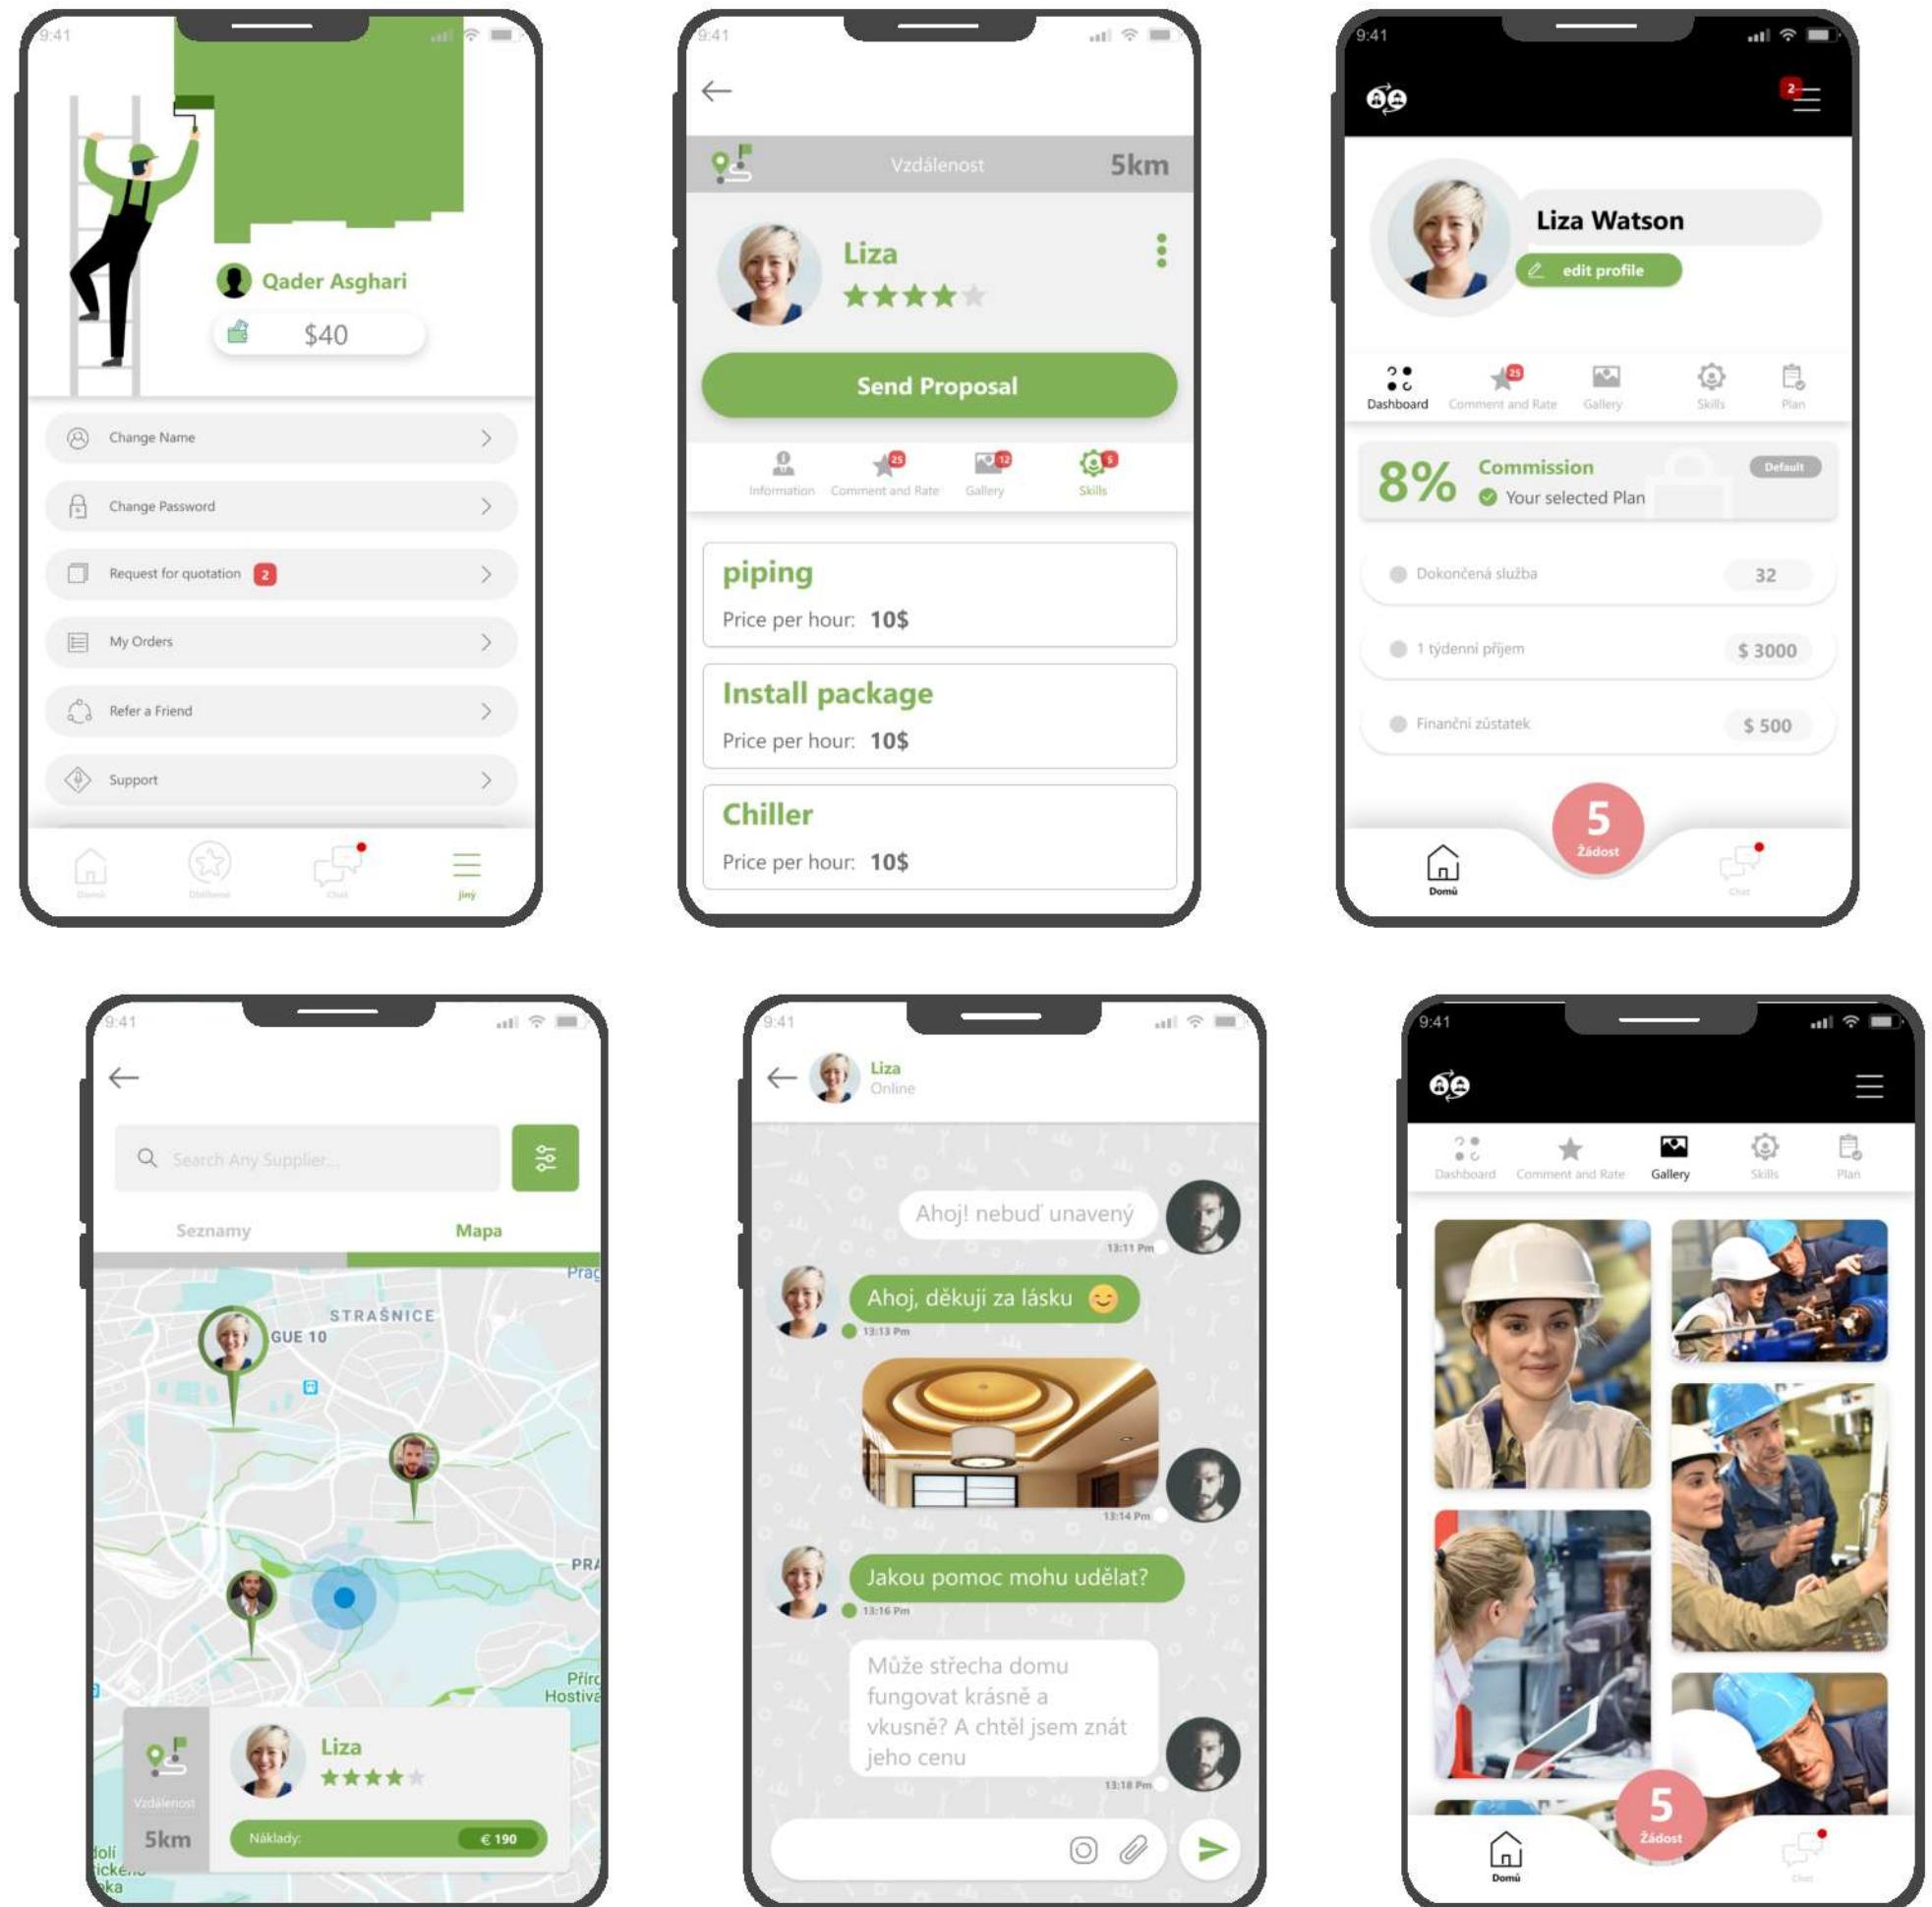

Friip

Friip is a platform for a mutual communication between service providers and citizens. The project was taken from a Czech company in October 2019. Development of this project lasted for 6 months and was done in 2 phases.

One of the advantages of Friip is the unique cohesion of the user interface that results in a perfect harmony between the application and the web site.

Friip was an excellent opportunity to challenge our abilities to use the latest project management methods and technologies.

Urban Parking System

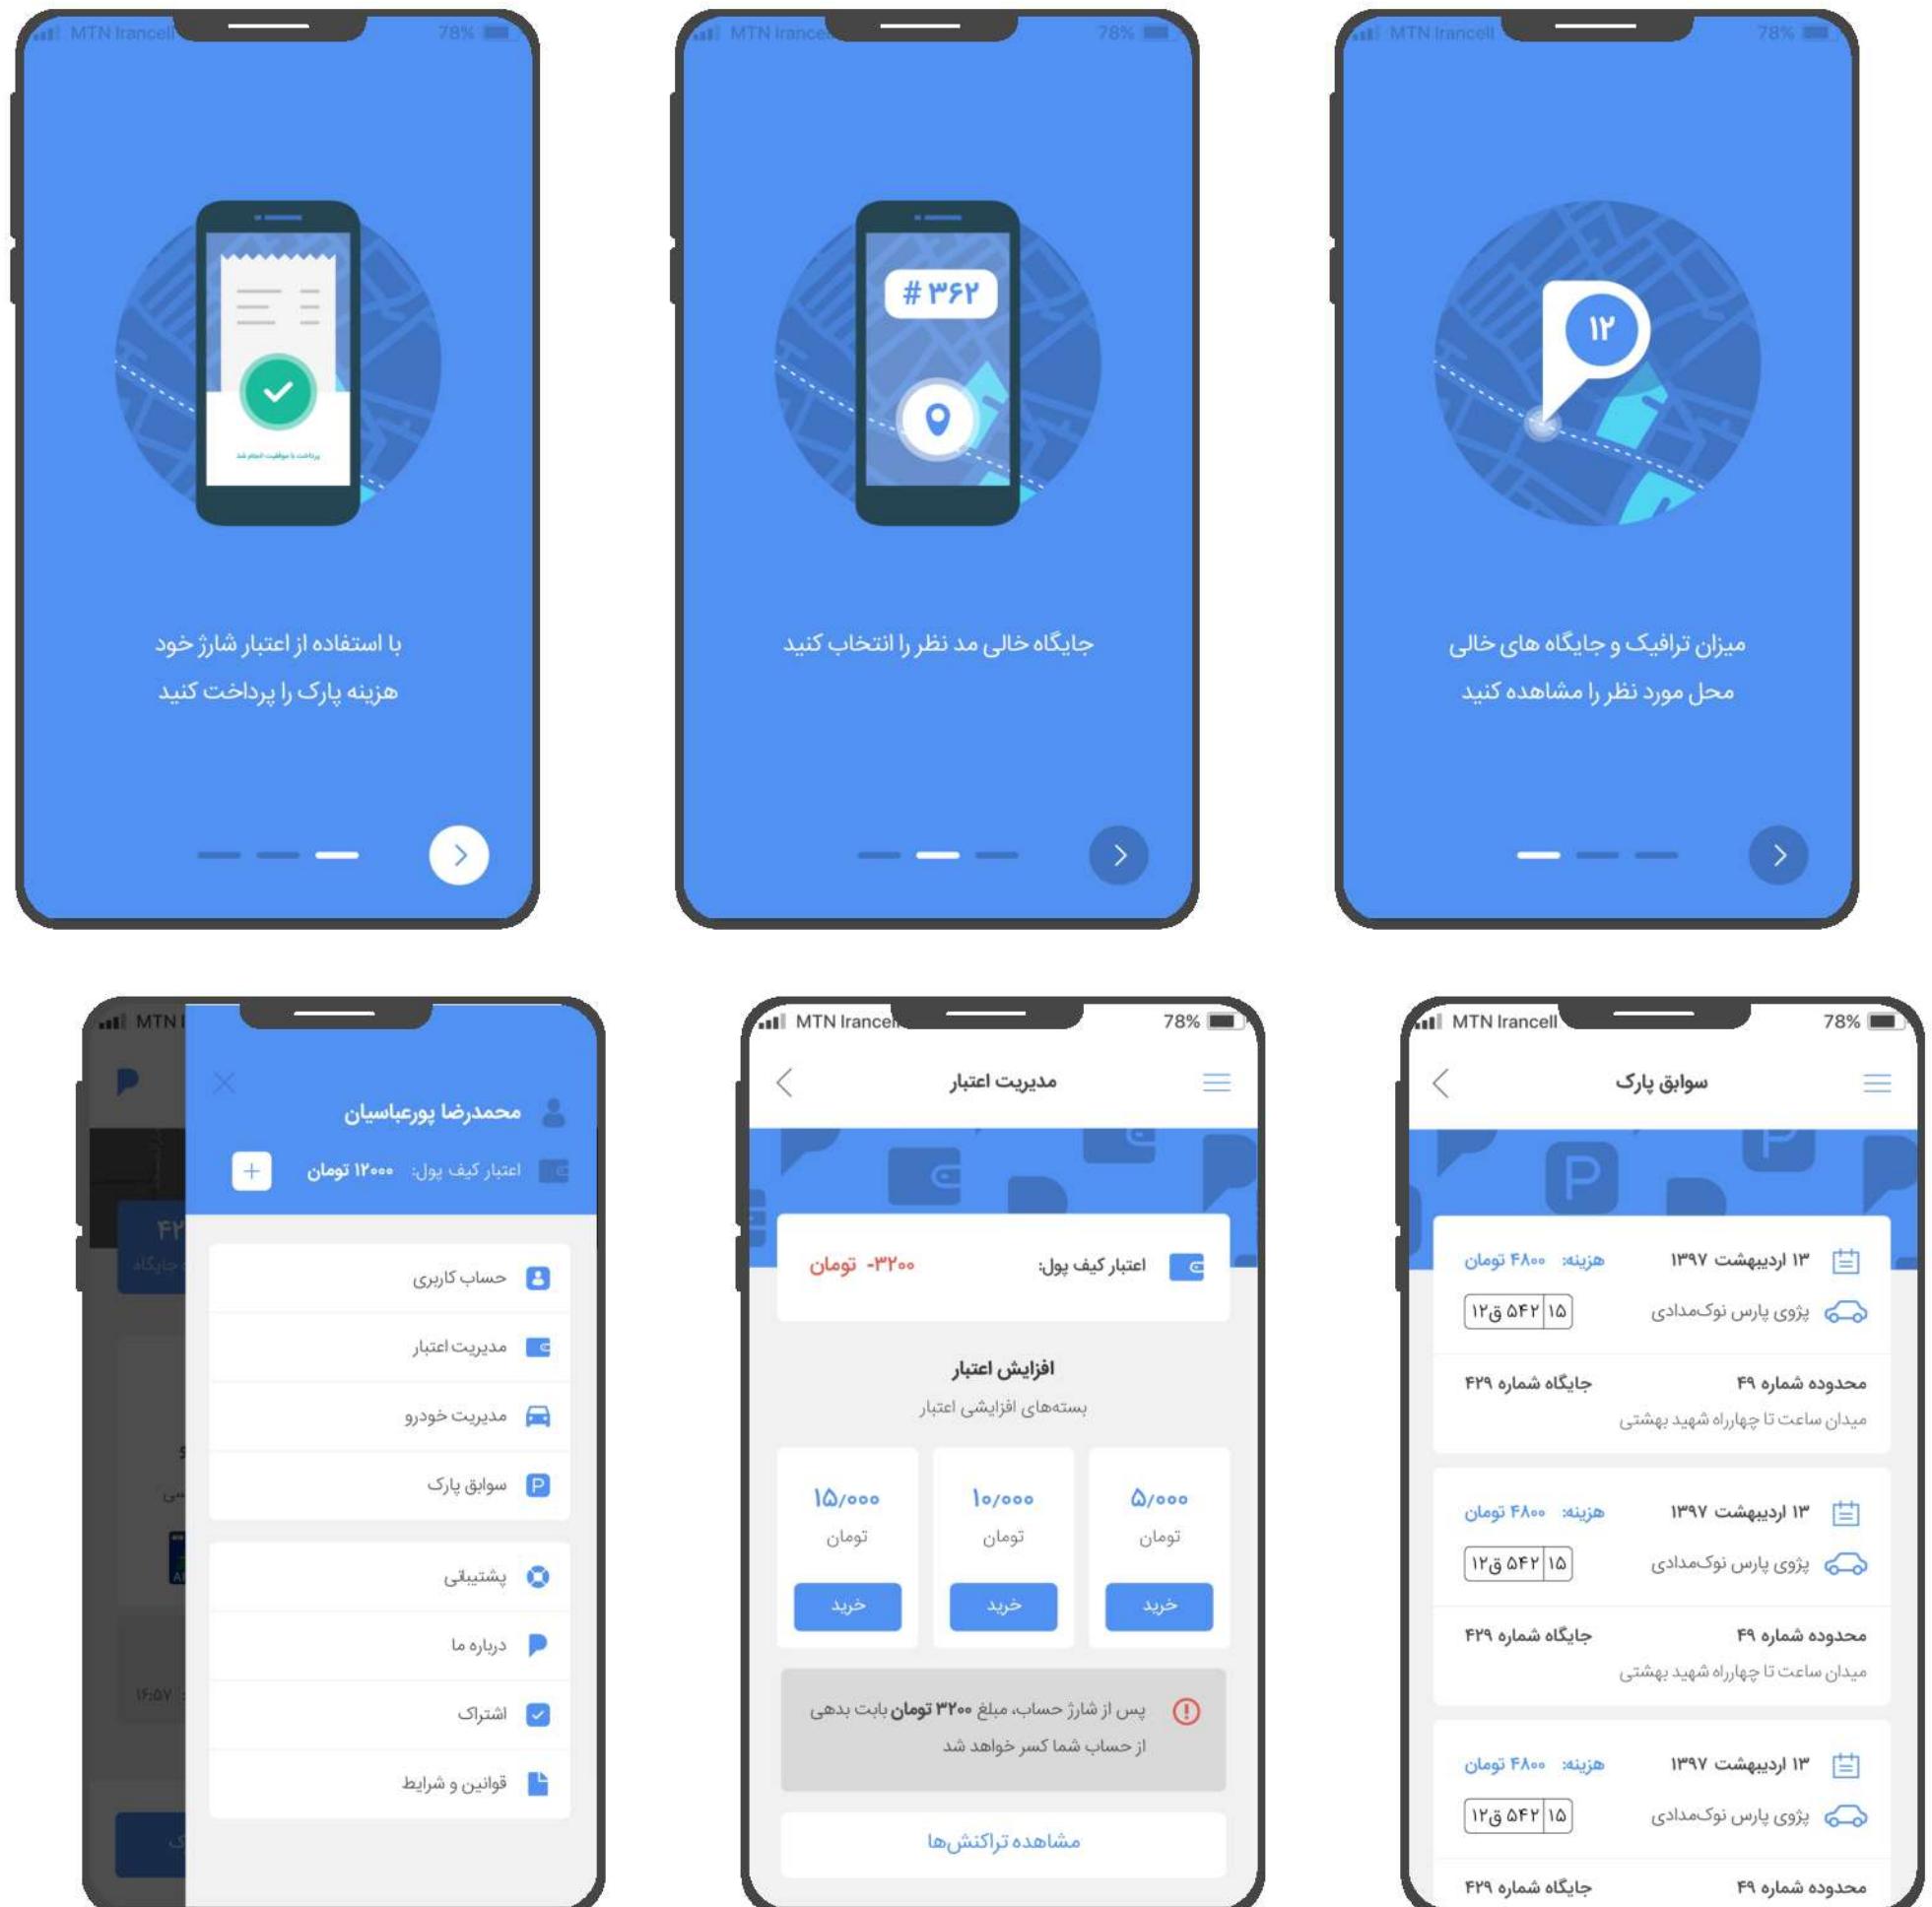

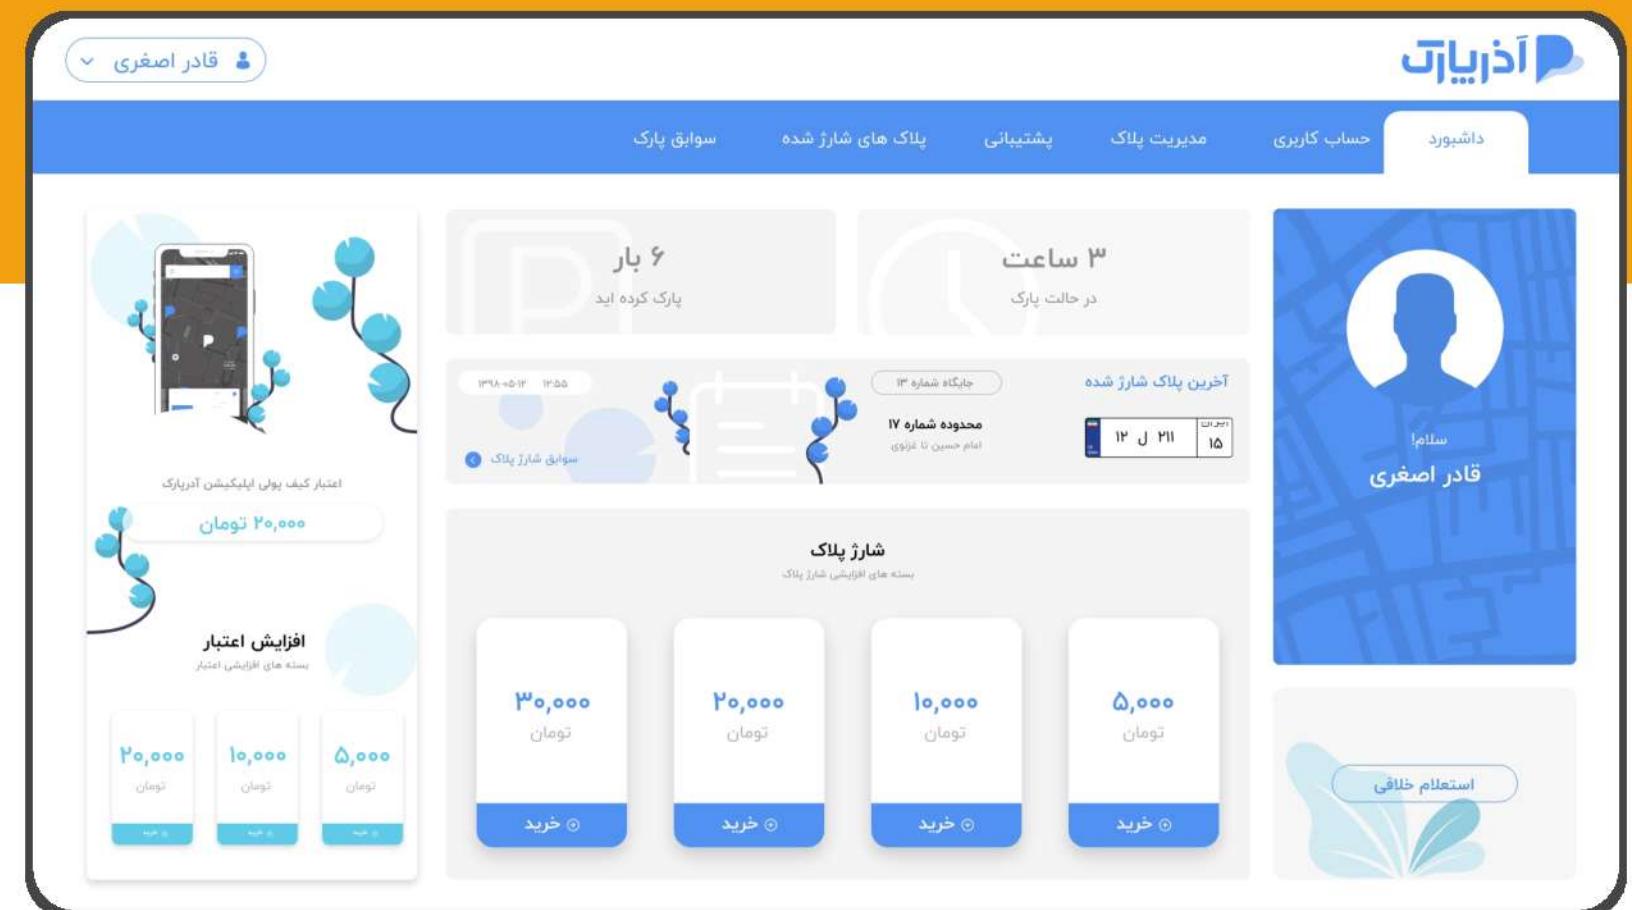

Azar Park

Azar Park is an intelligent urban parking management system that started its first phase in Kashan and now it's being adopted in Tabriz as well.

Azar Park has over 100,000 daily transactions, over 1 million registered number plates and an intelligent system to assess the performance of the traffic wardens.

Memaran Dadeh has been in charge of the development and support of Azar Park since 2018.

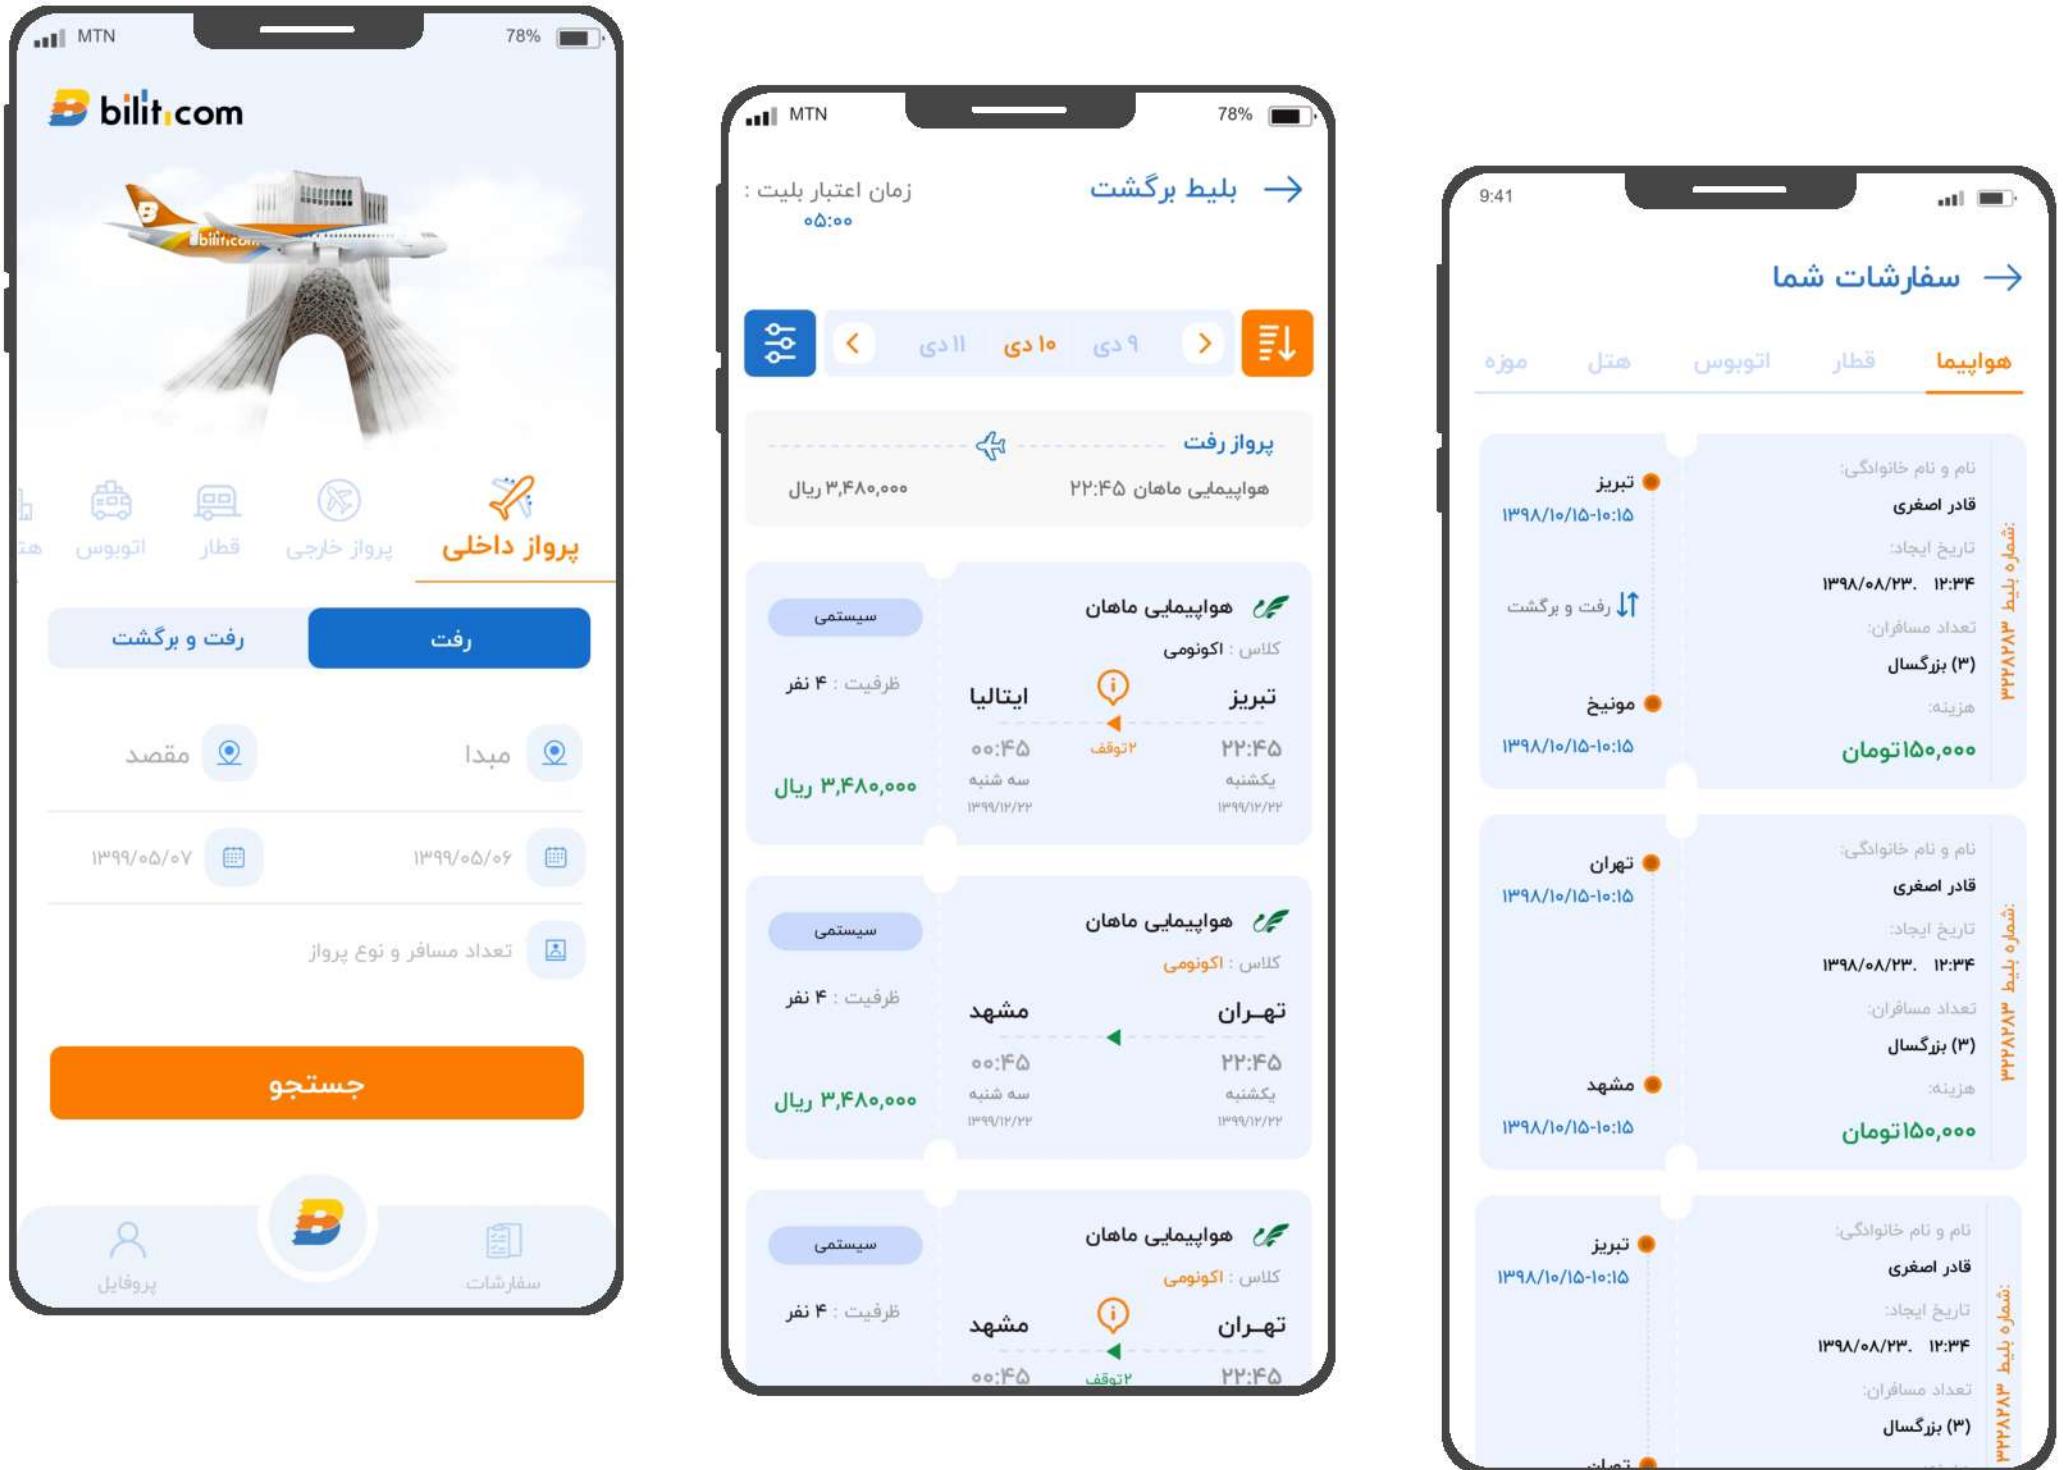

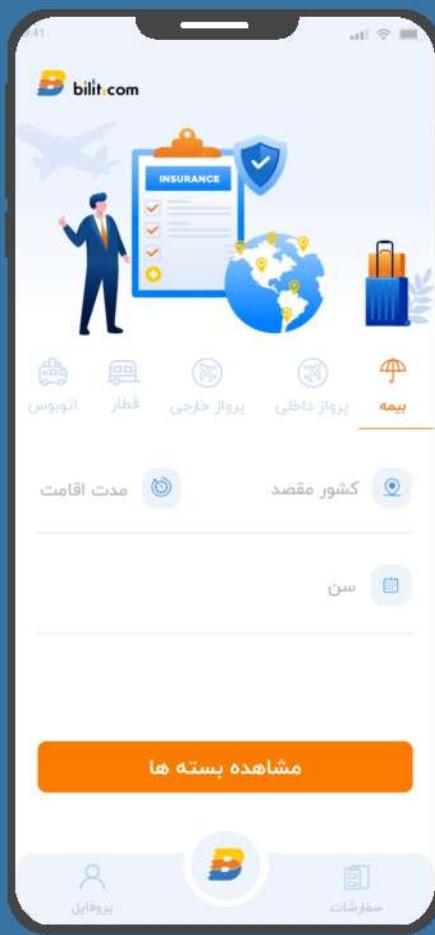

Raika Tejarat Rah e Abrisham started its business in Toursim in 2017.

Among the most exciting projects of this group (also known as Bilit.com) are the API projects which enable worldwide interaction.

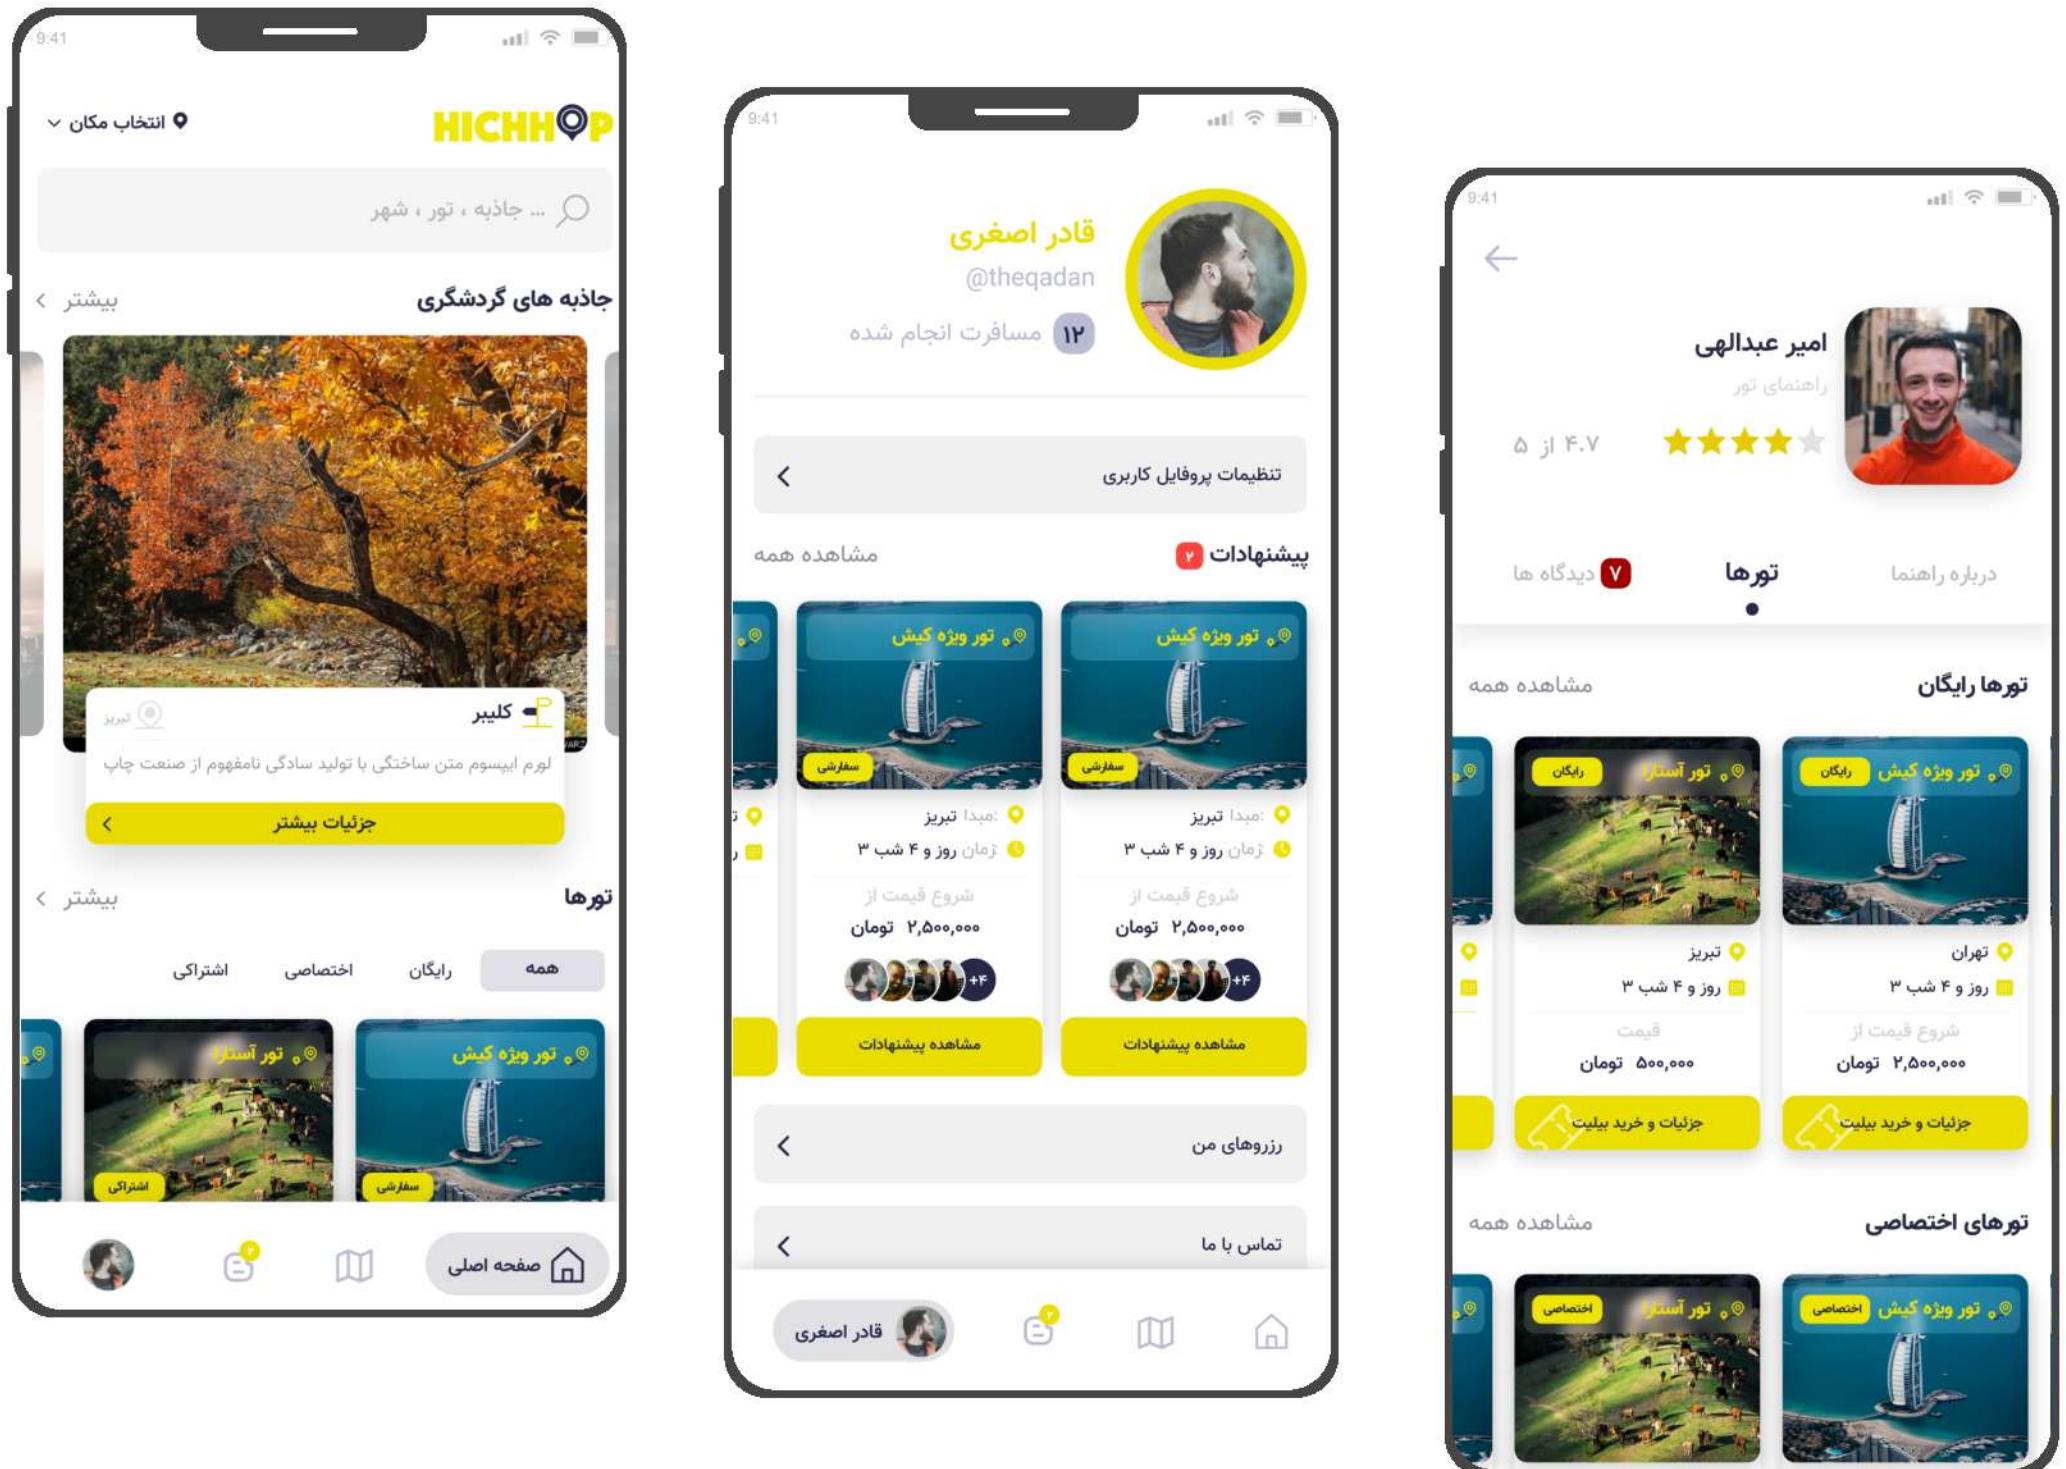

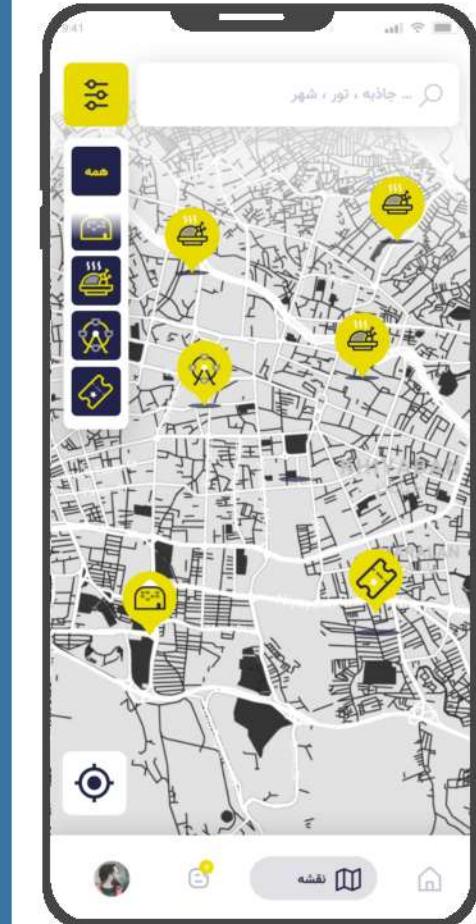

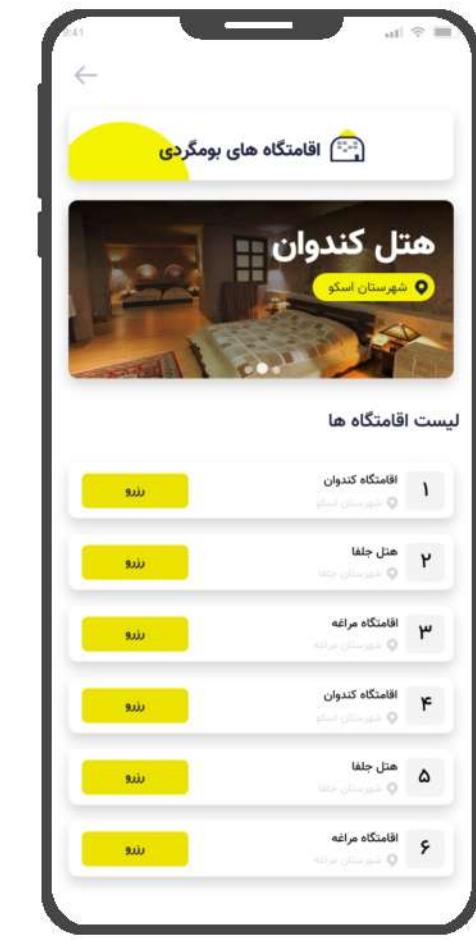

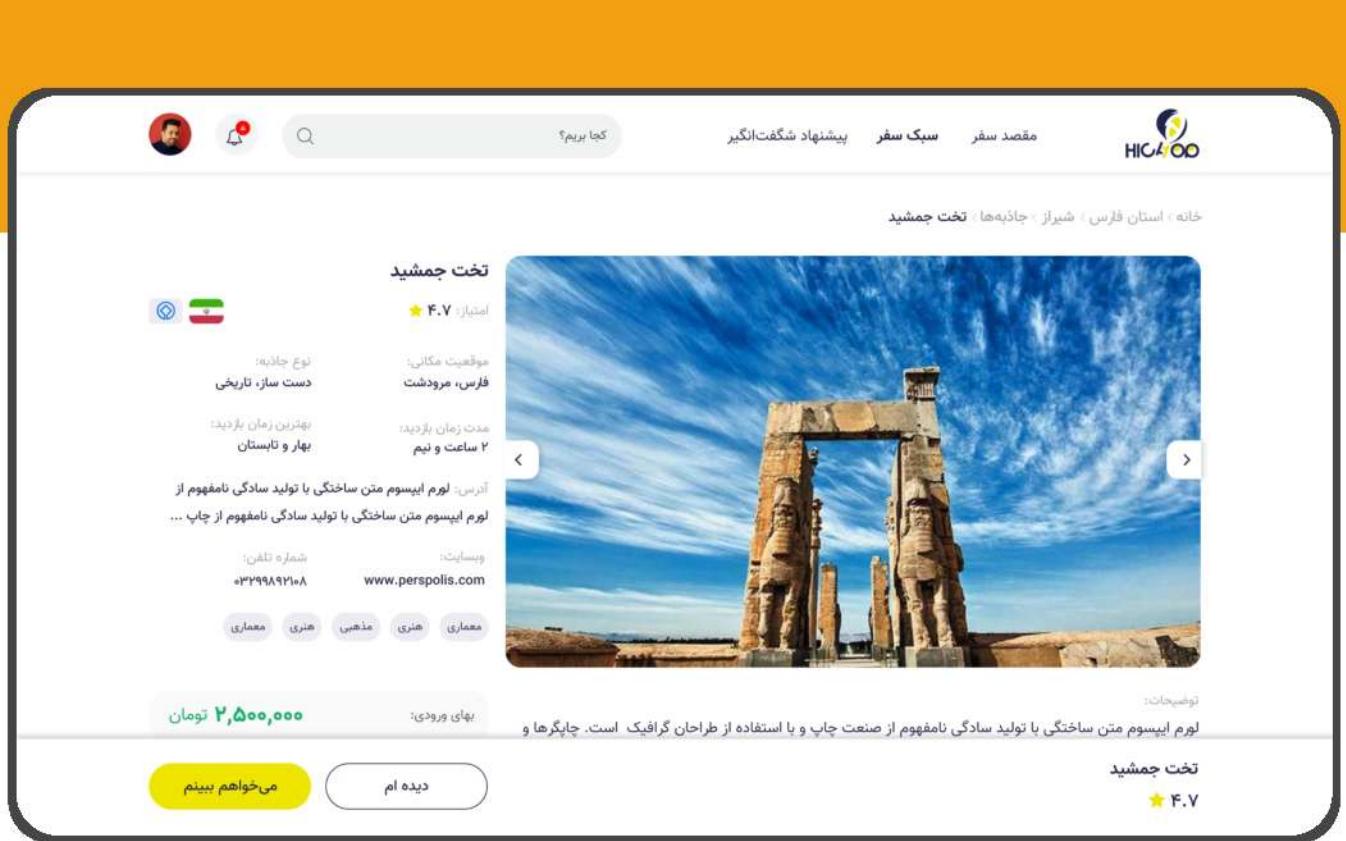

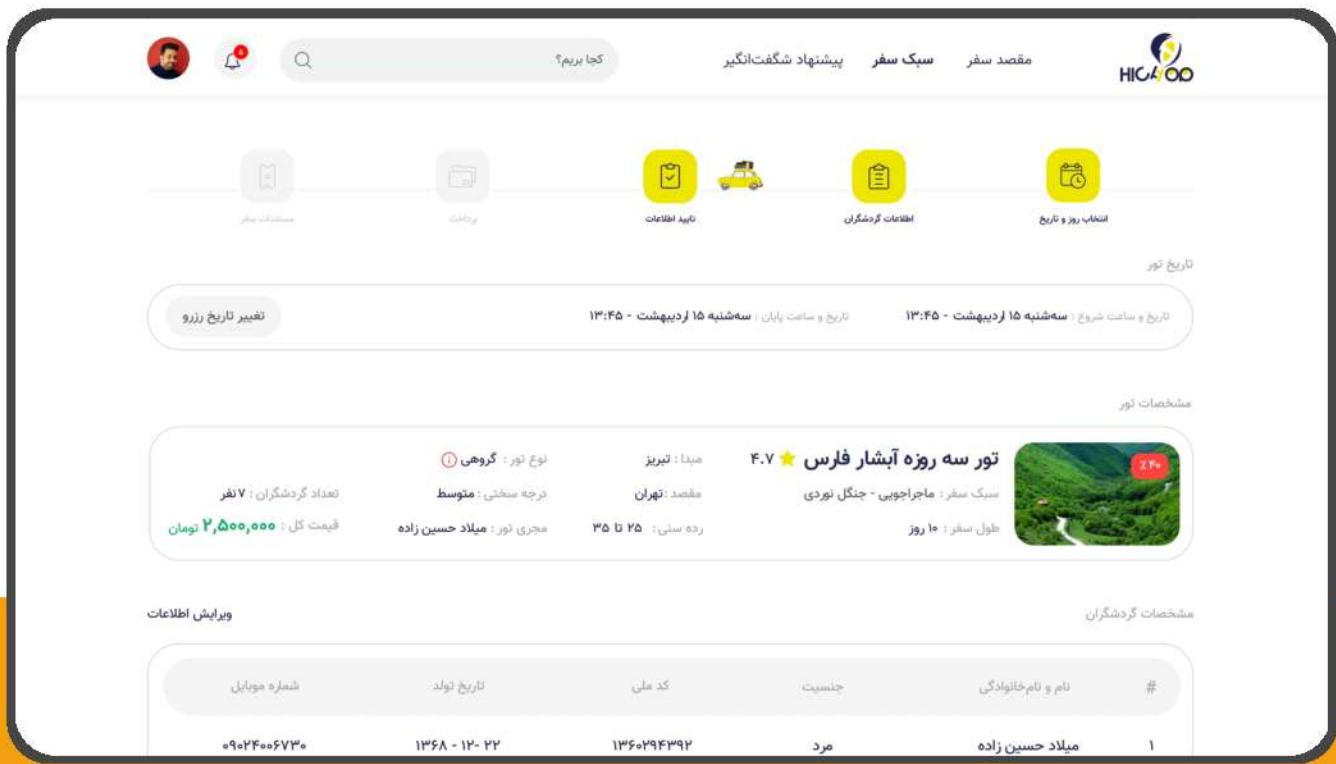

In an attempt to institutionalize and develop Tourism, Hichhop was founded in Tabriz in 2018.

Later, Hichhop moved to other provinces of the country as well in order to expand the idea in other cities and hold free tours.

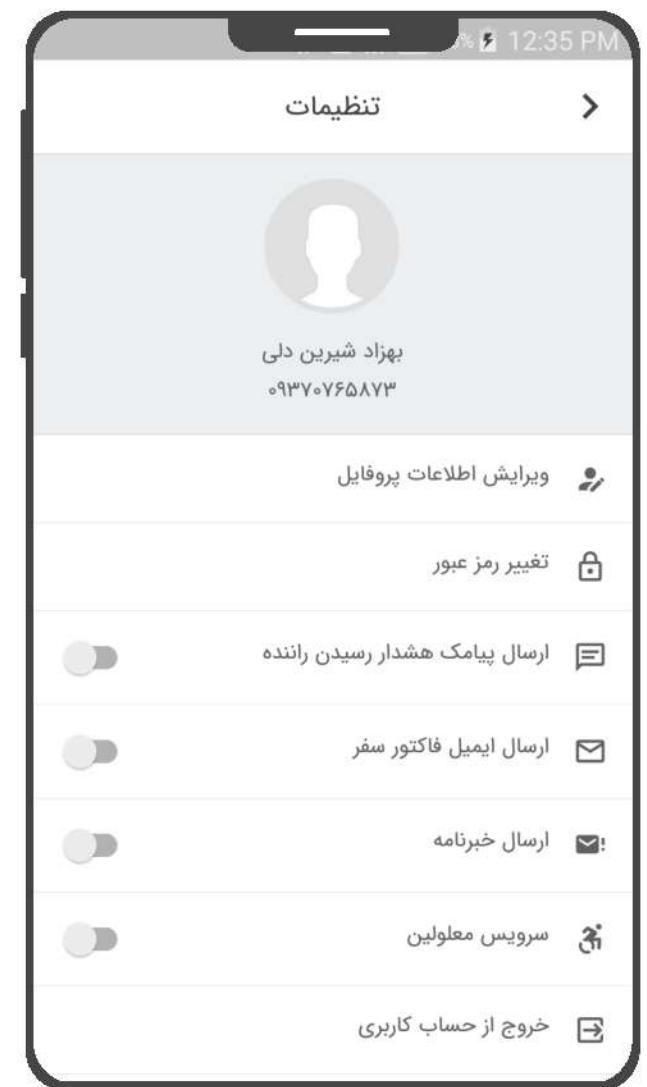

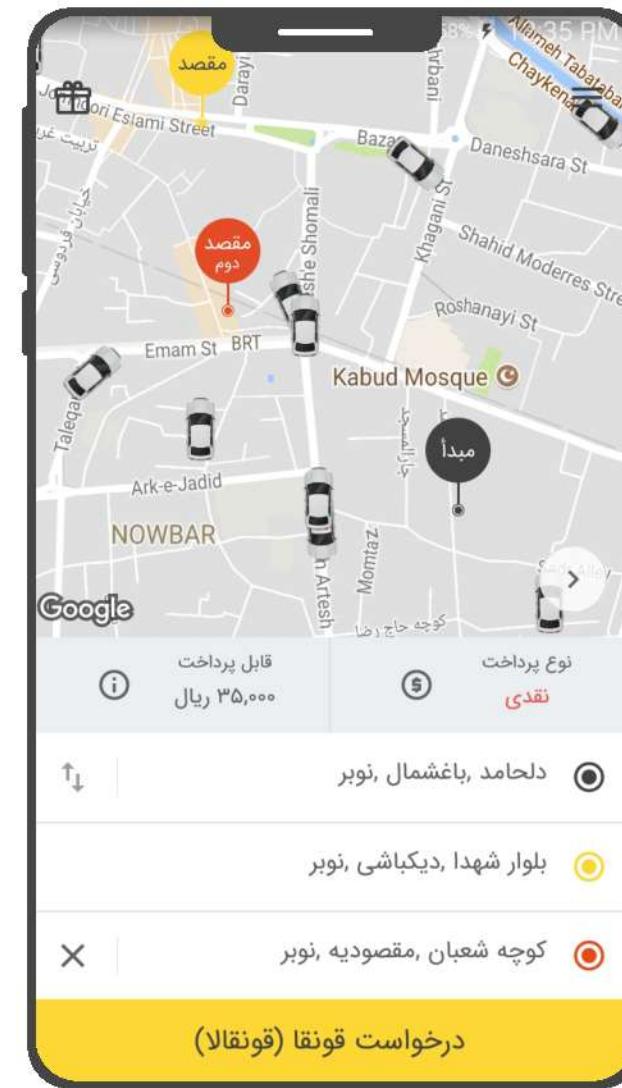

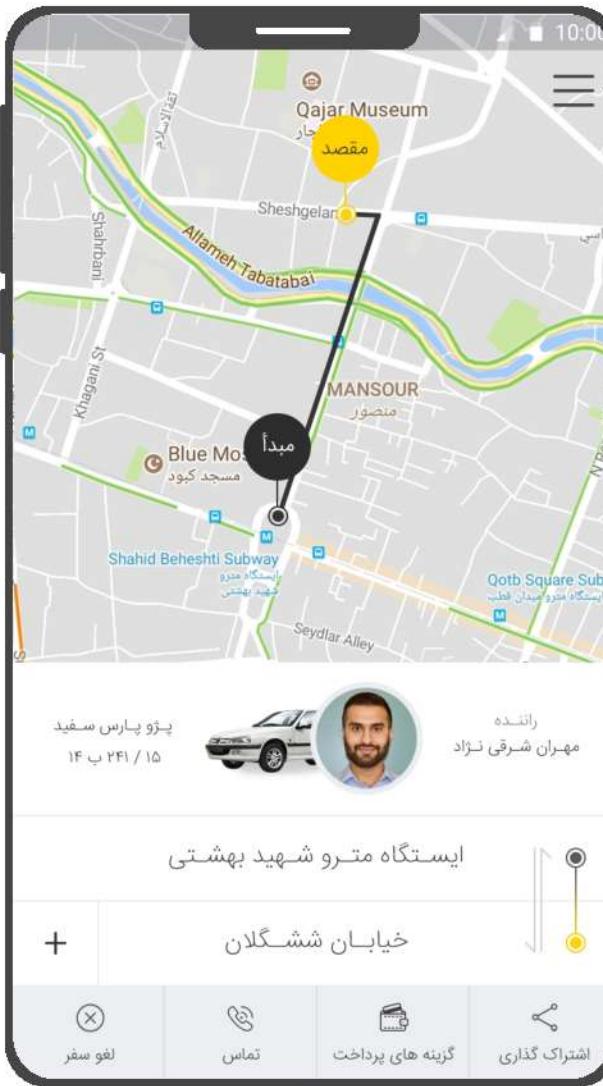

Qonqa

Online Taxi Service

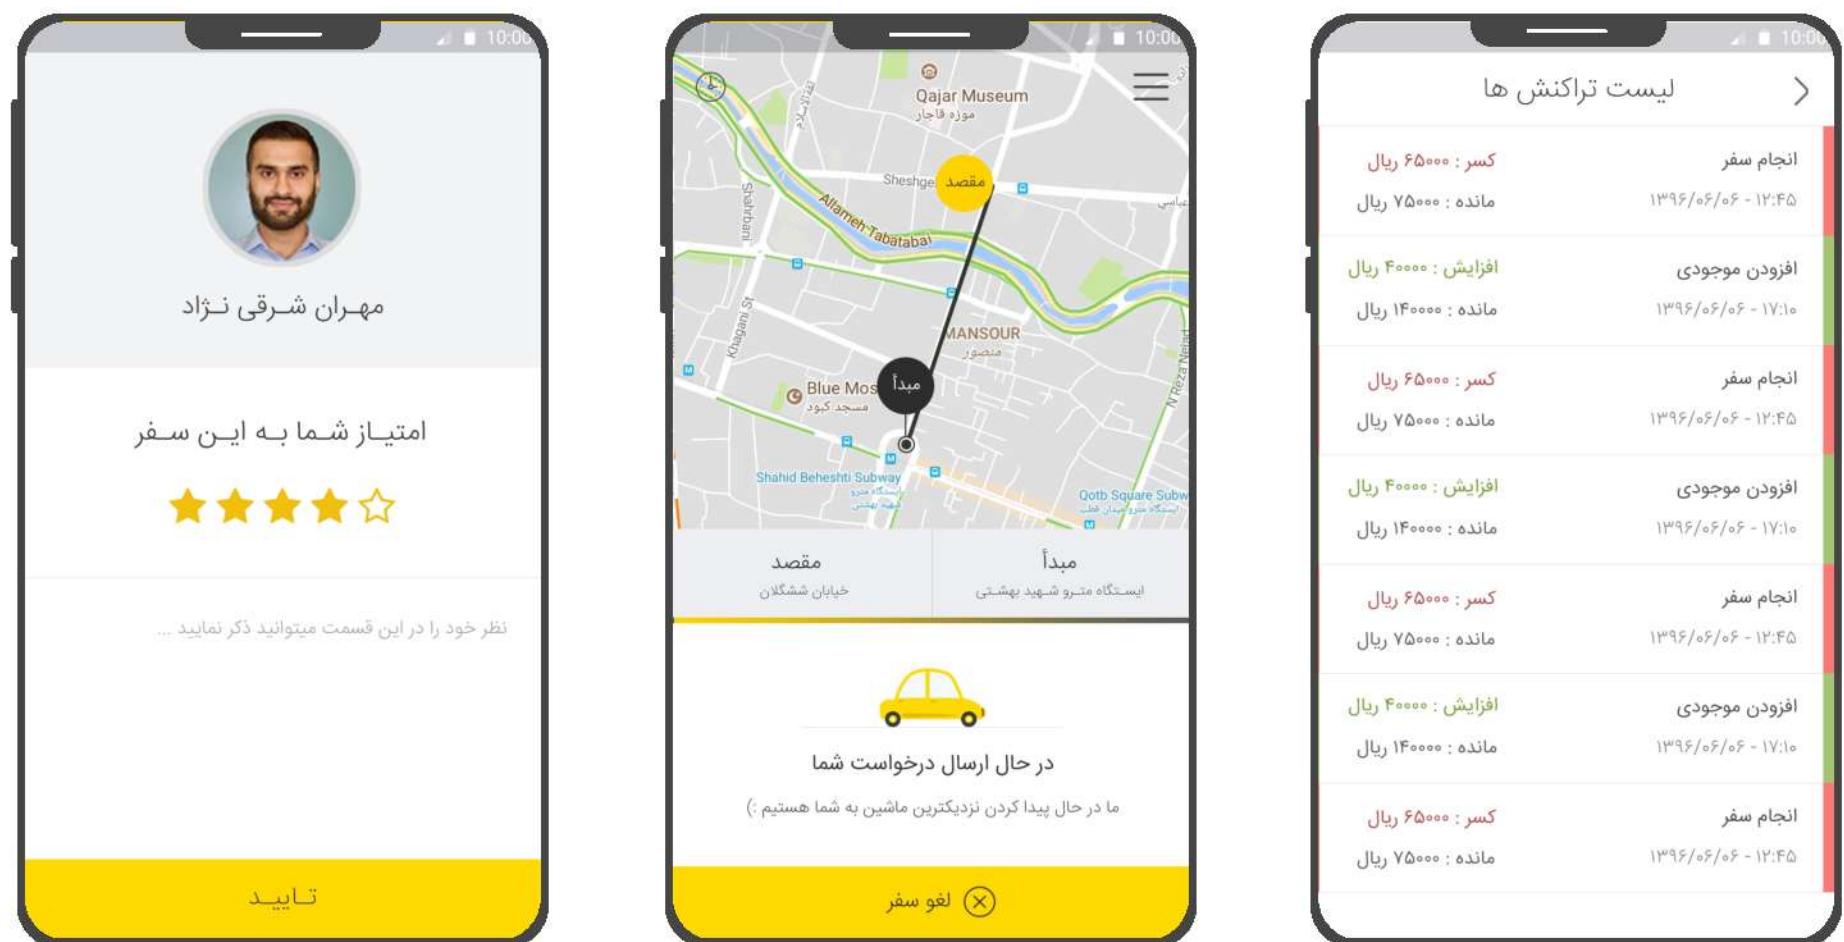

Qonqa

Qonqa used to be considered as a successful startup in Tabriz, being installed more than 100 times and over 30,000 daily journeys.

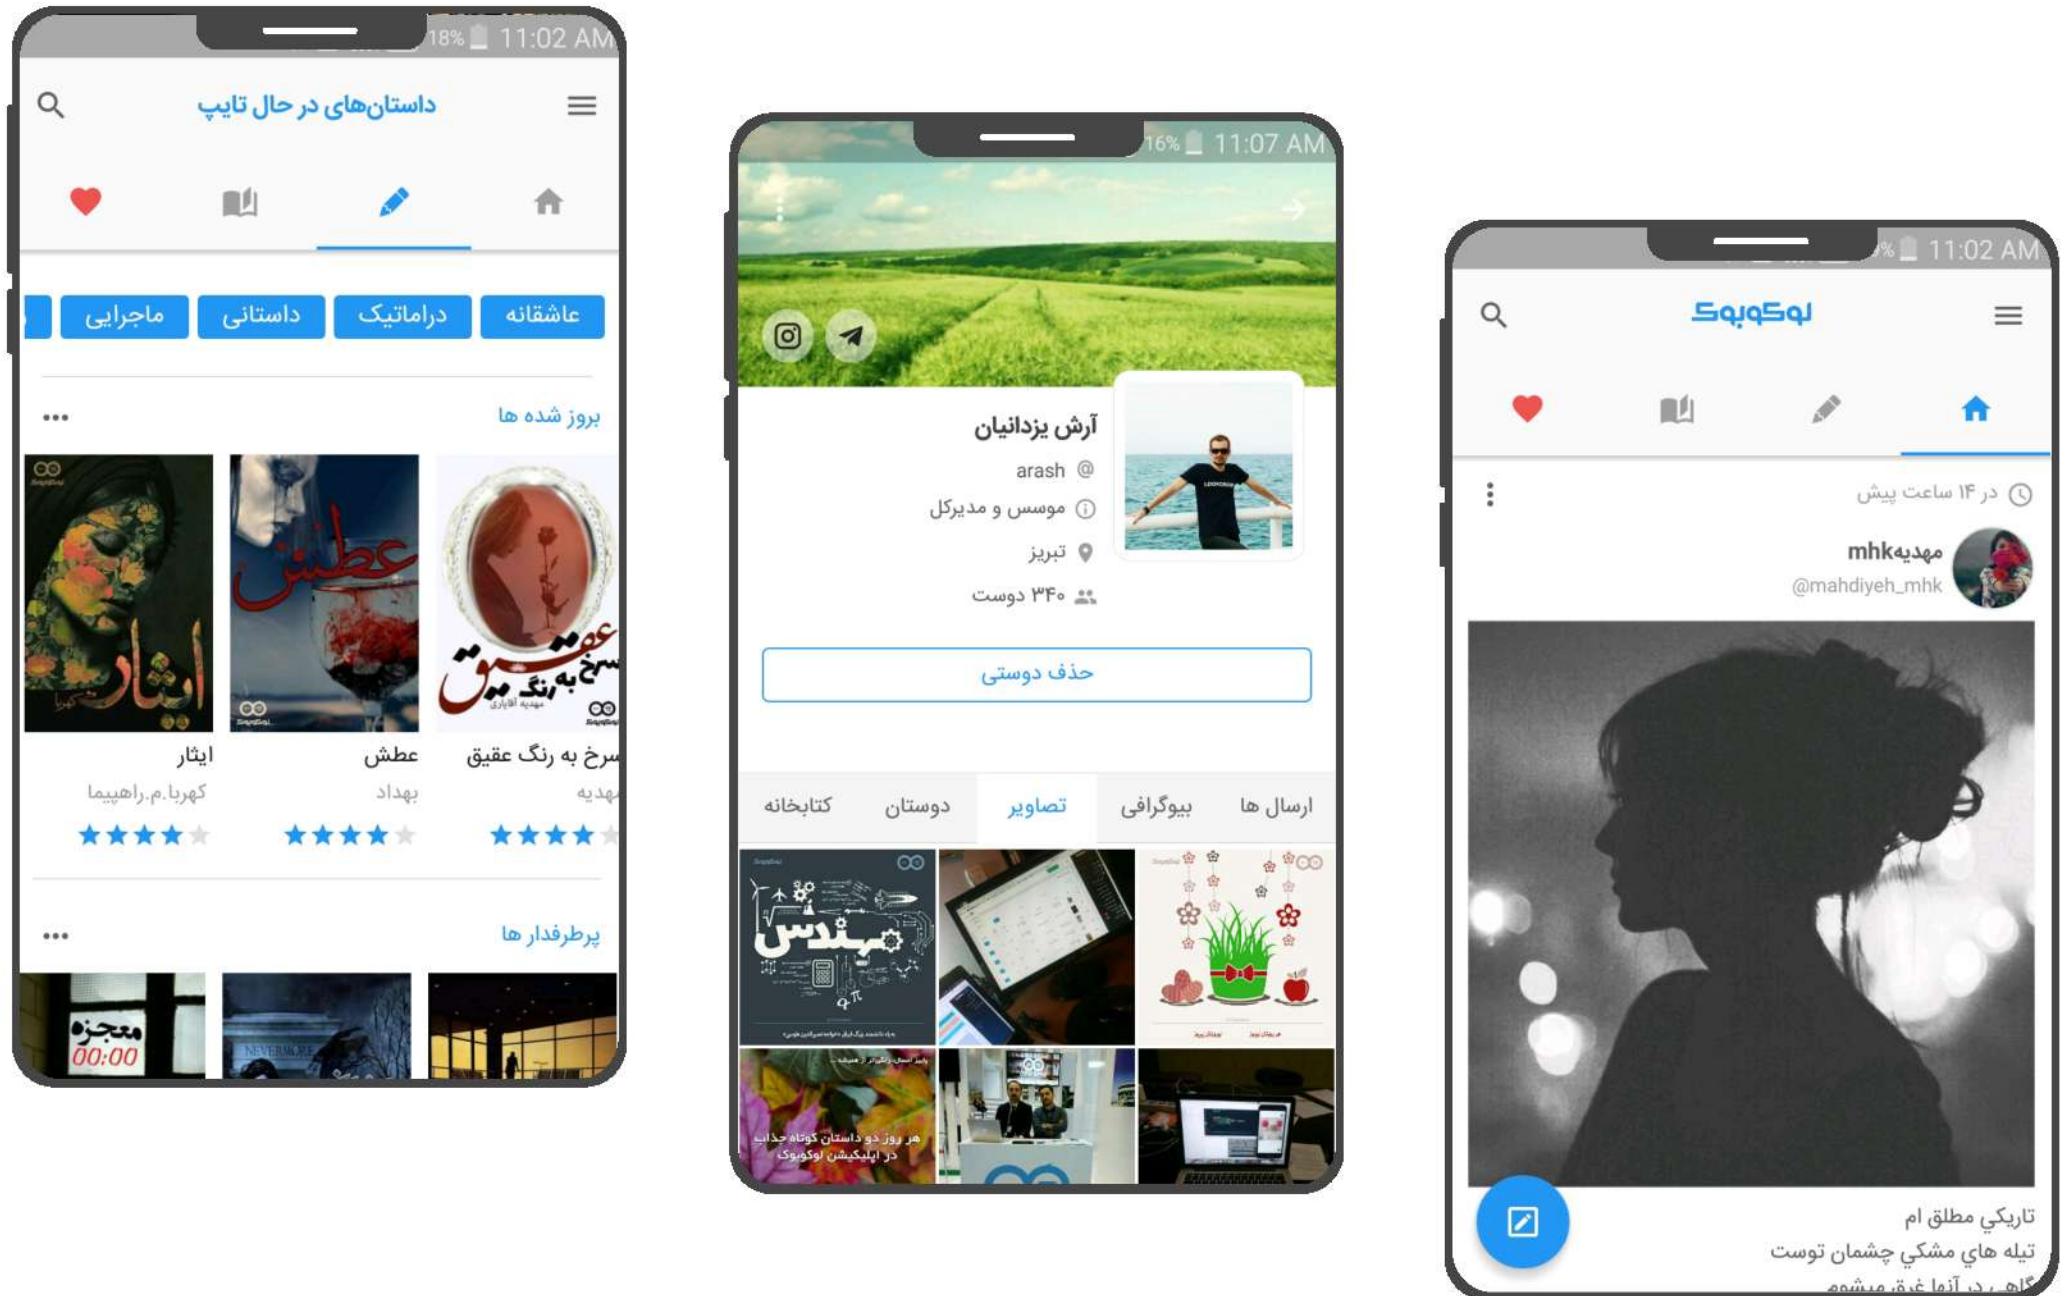

Our cooperation with Qonqa goes back to 2016 to re-develop the application. Development of these systems have always had their own troubles.

However, we were able to appropriately support Qonqa at the moment of crisis.

Writing Social Network

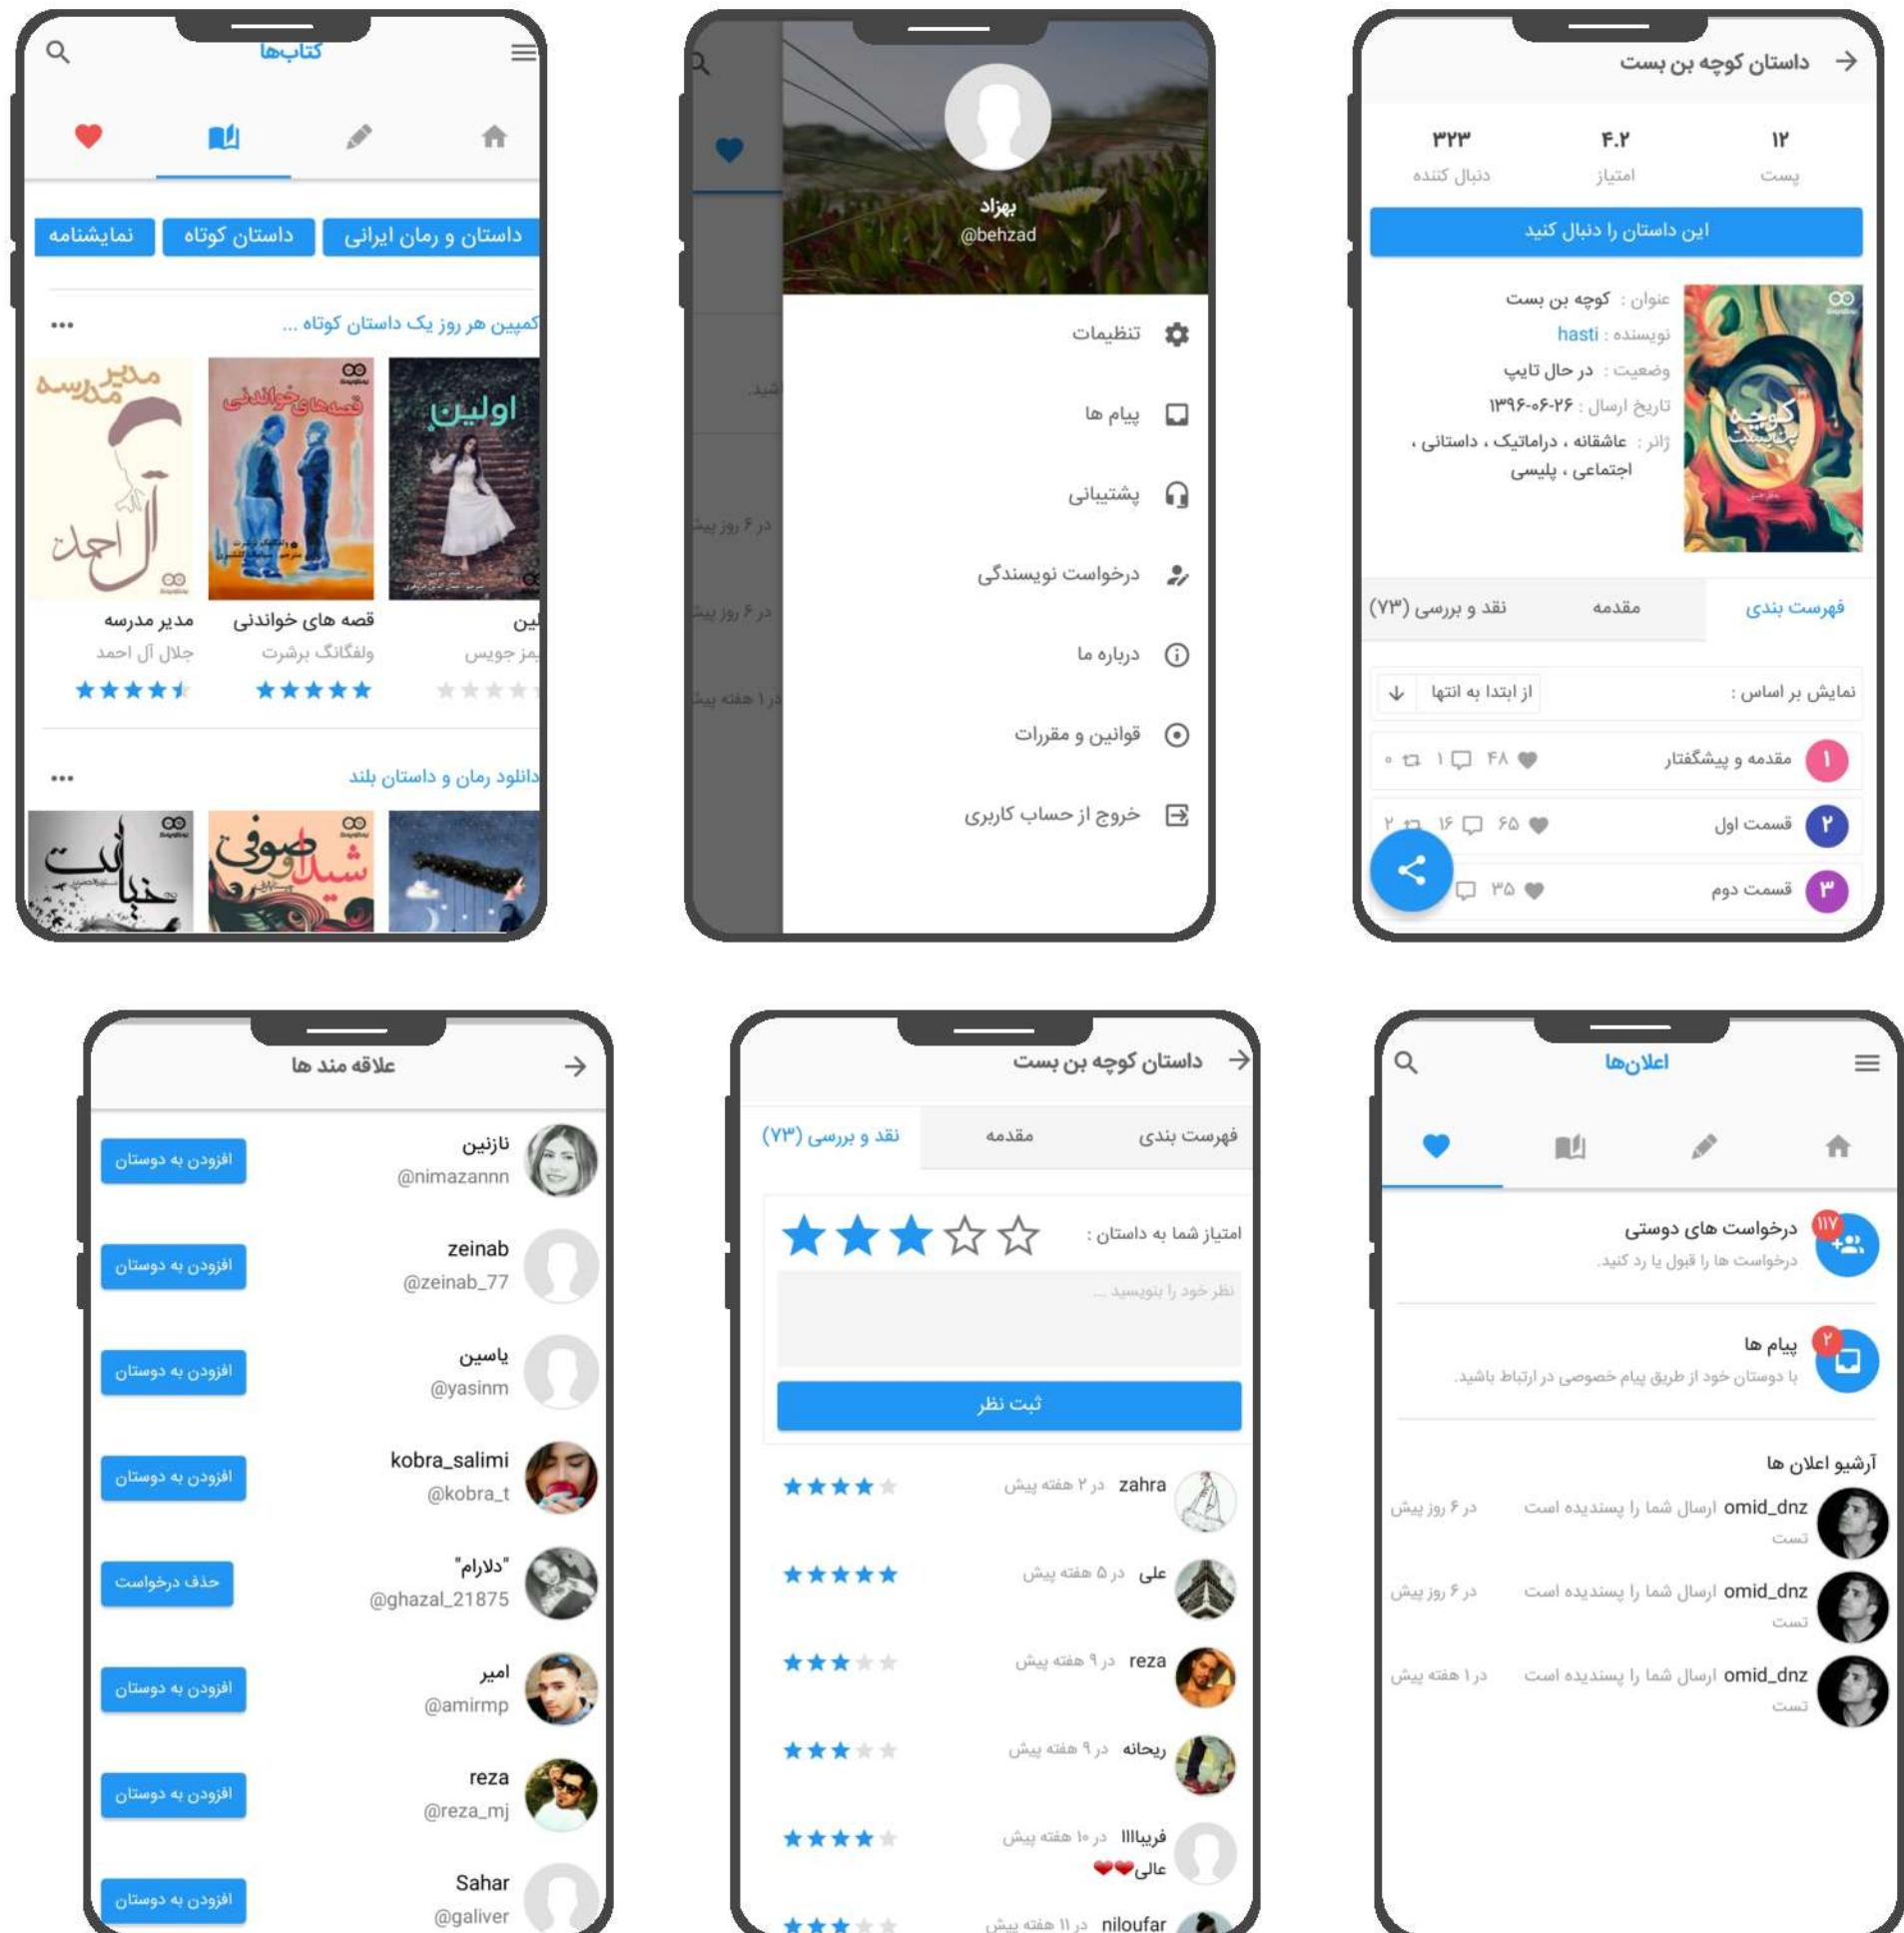

Lookobook

Lookobook was an interesting challenge for Memaran Dadeh. We tested ourselves with the challenges of a social network and improved at the same time.

As the technical team of Lookobook, we had the chance to participate in Tabriz Startup Meetup, Tehran Inotex and Bakutel 2018 events.

In addition, we were the Iran Startup Ambassador in Gitex 2018 event in Dubai, and Slush 2018 event in Helsinki, Finland.

Online Service Request

UstaTap is an attempt to develop On Demand Service systems that is working in Tabriz, Shiraz and Hamedan.

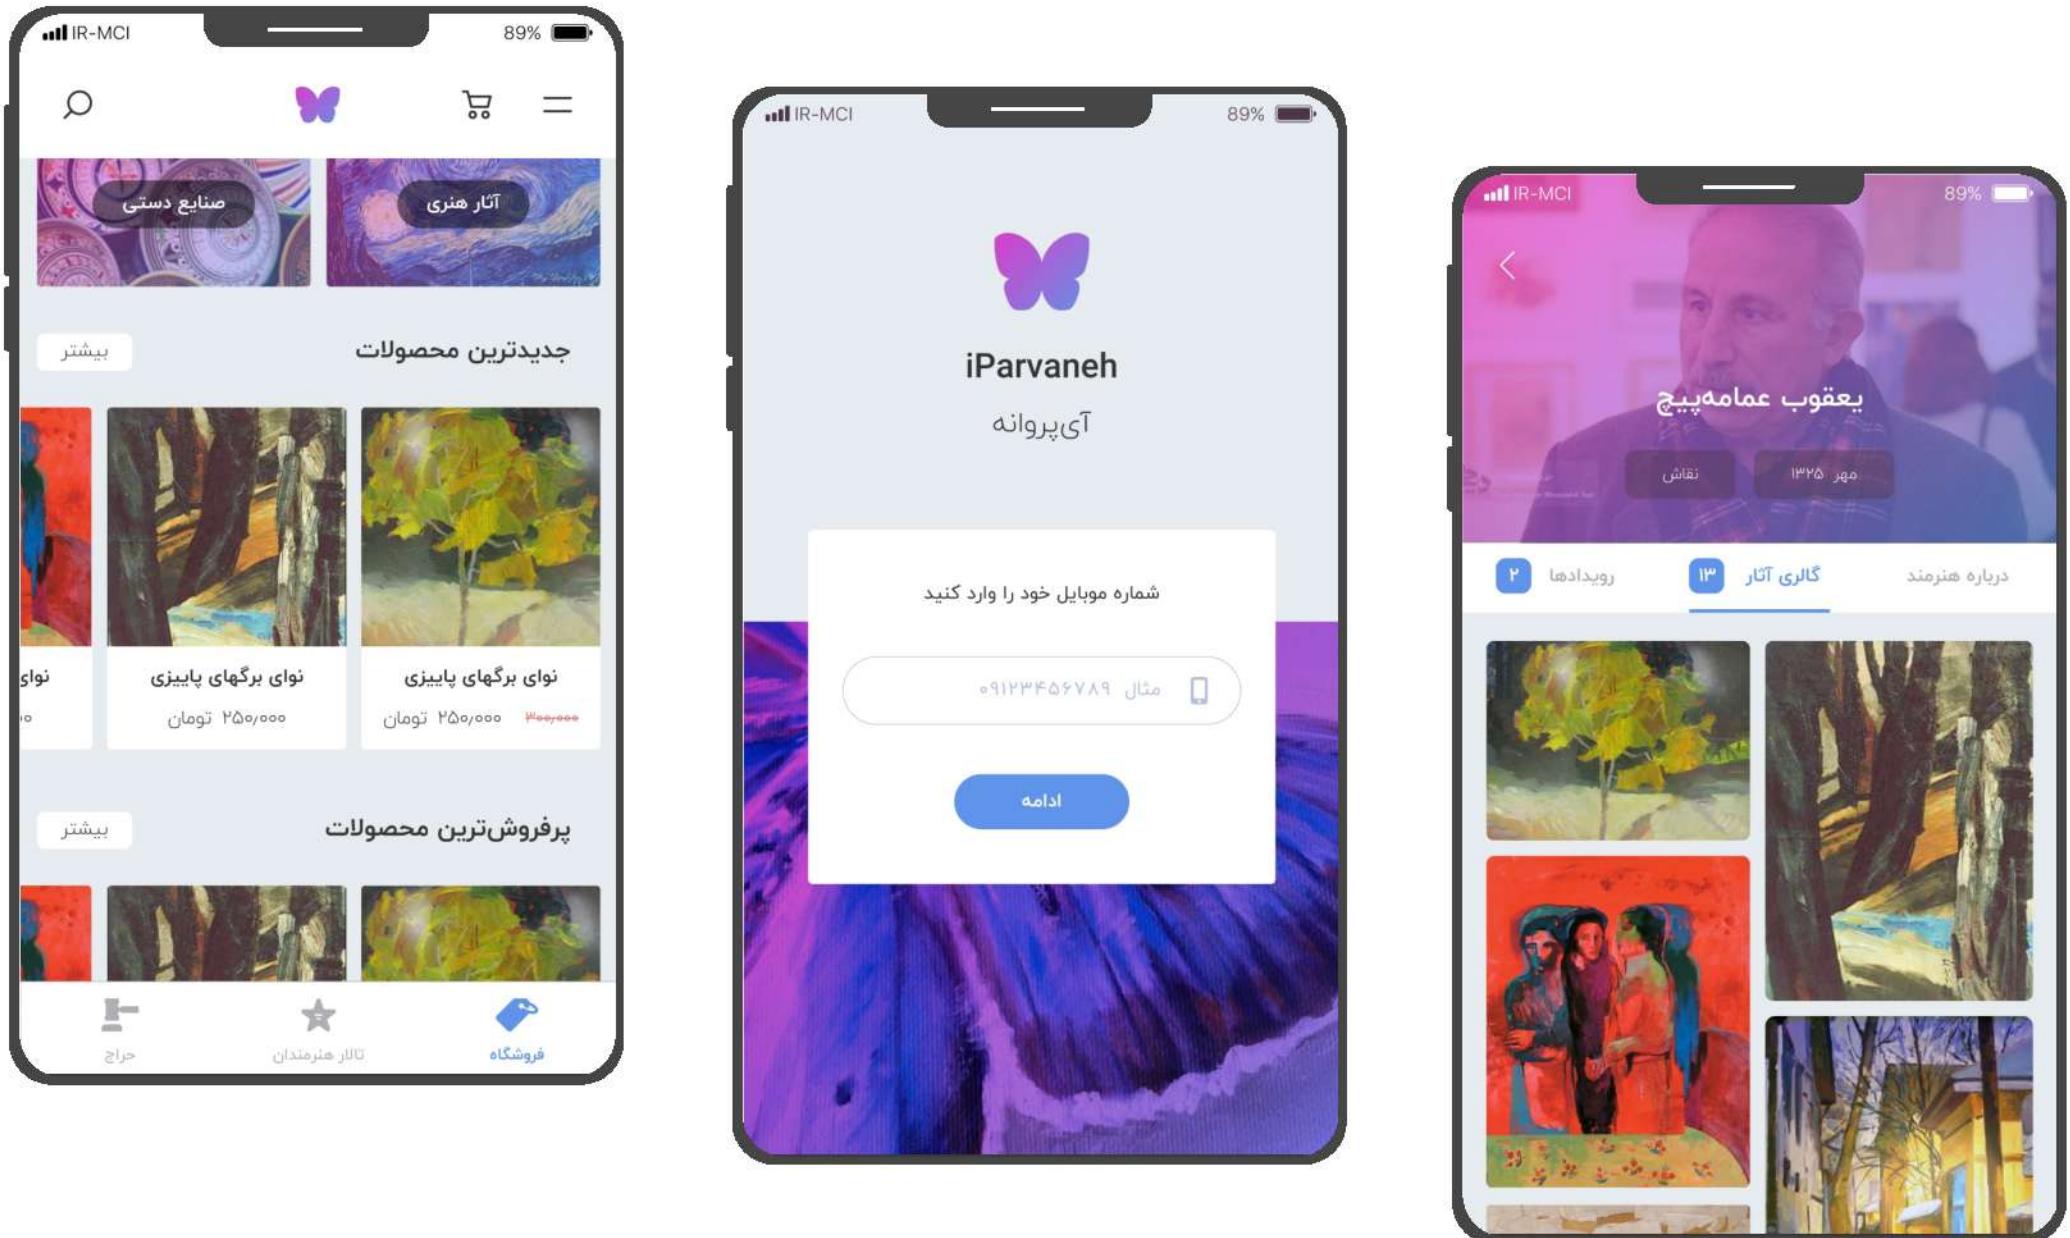

It has been able to properly cover the needs of the citizens.

The screenshots demonstrate the UstaTap app's features:

- Screenshots 1 & 2:** Home screen showing service categories: دنبل نقاش (Painting), خوب می‌گردد؟ (Is it good?), چطوری می‌توینیم کمکتون کنیم؟ (How can we help you?), and various icons for Furniture, Cleaning, Construction, Vehicles, Plumbing, and Electricity.
- Screenshot 3:** Service details for Furniture Repair (تعمیر مبلمان) showing a sofa and a washing machine.
- Screenshot 4:** Service request creation for Furniture Repair (تعمیر مبلمان) showing price options: ۱۴۰۰۰ تومان (Repair furniture) and ۱۴۰۰۰ تومان (Repair furniture).
- Screenshot 5:** Order history showing a completed repair job (سفارش جاری) for a sofa repair (تعمیر رویه مبلمان) by service provider "محمد پورصاغری" (Mohamed Poursaghi) with a 4-star rating.
- Screenshot 6:** Order history showing a completed repair job (سفارش جاری) for a sofa repair (تعمیر رویه مبلمان) by service provider "محمد پورصاغری" (Mohamed Poursaghi) with a 4-star rating.

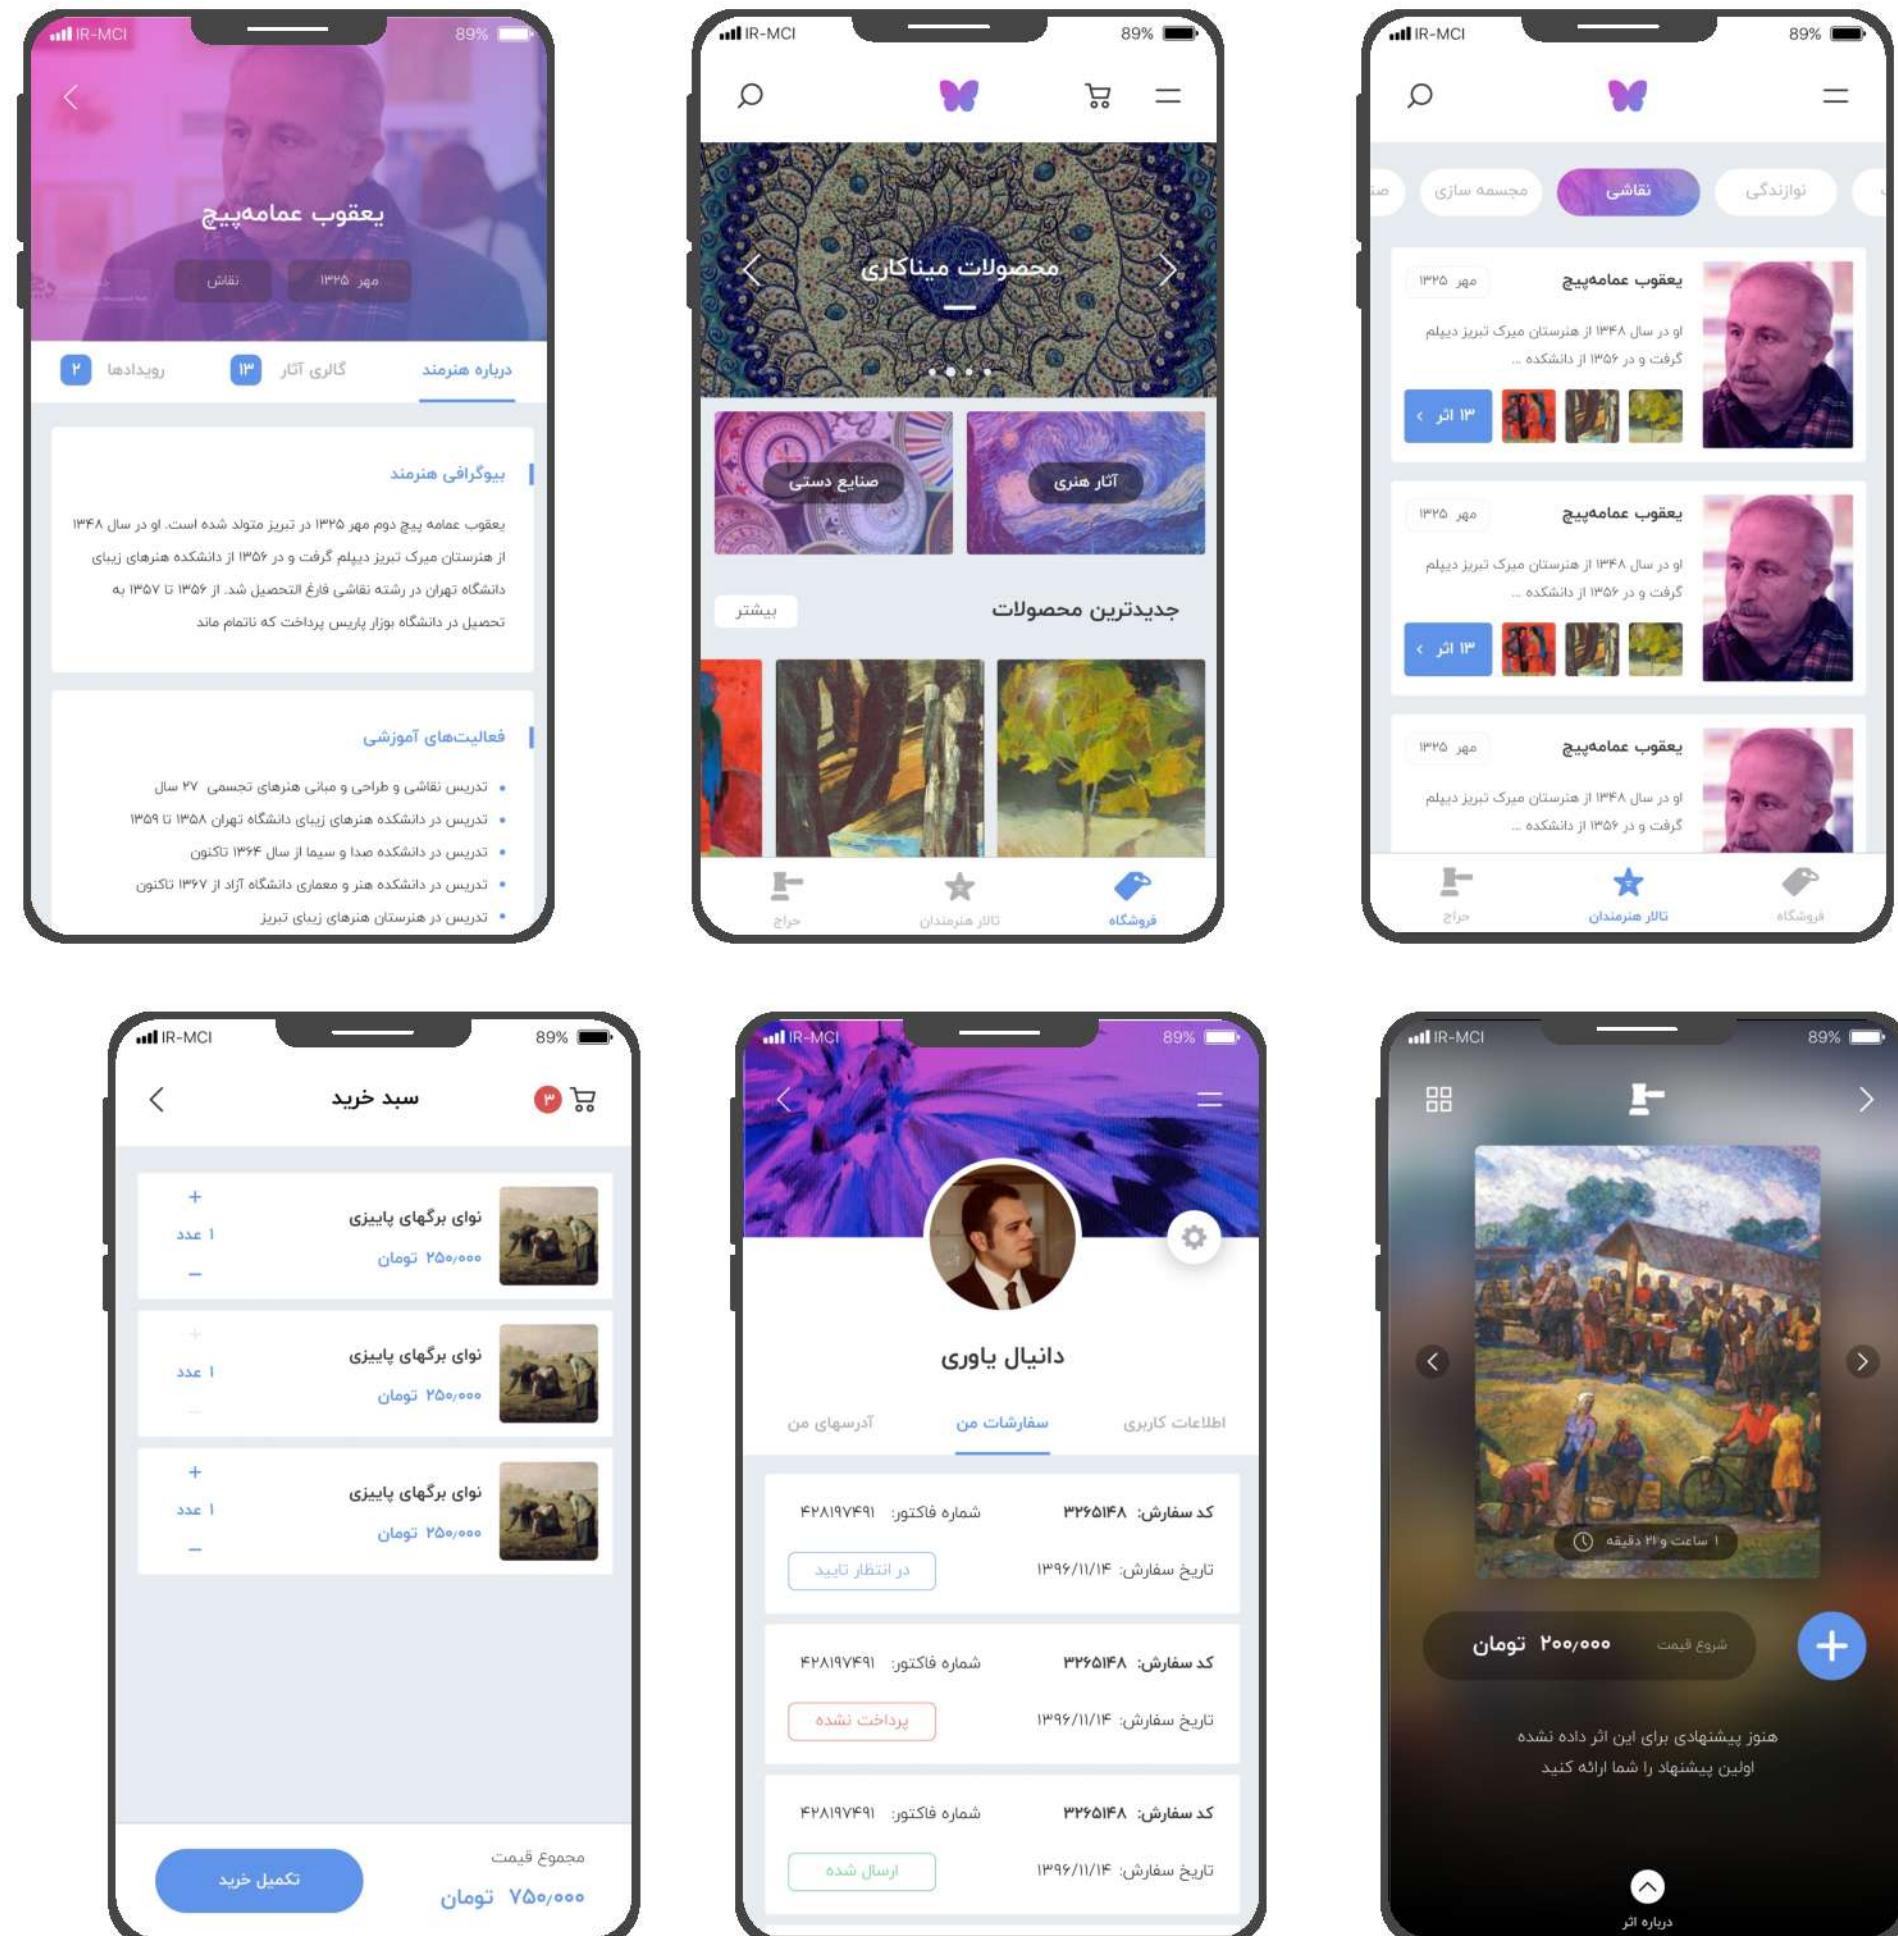

Artifacts Sale

Parvaneh

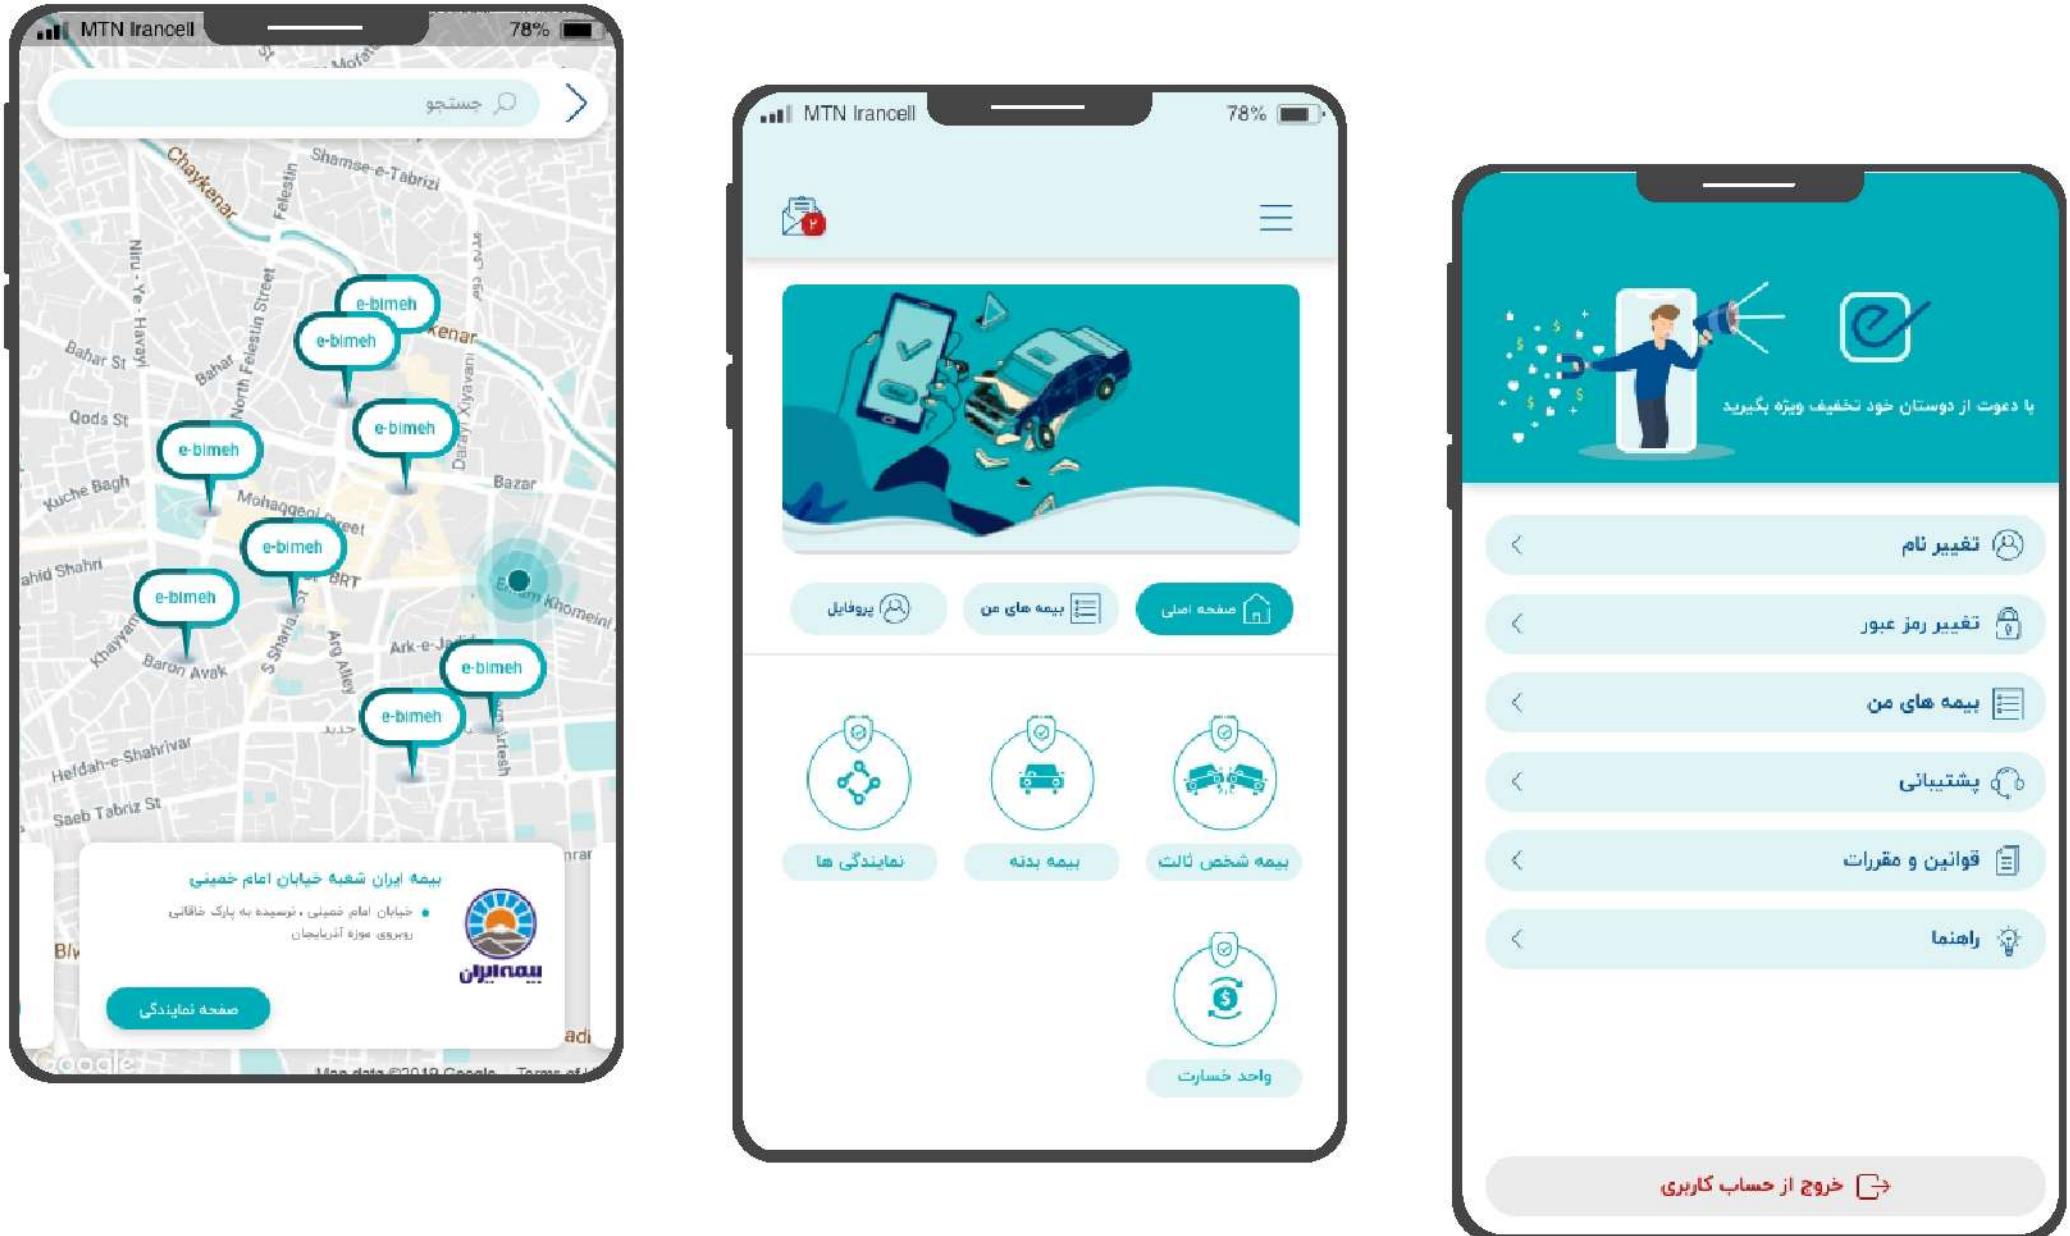

Parvaneh is an application striving to make the cultural crafts and artifacts more available through direct access to the artists and their works.

It also creates a platform to exhibit and sell artworks and handicrafts, provide employment opportunities and present the talents of less known artists.
